

PRICING DOCUMENT

Unify Call Control System (UCCS) PIN phone solution for prisons and secure facilities

The cost to install the Unify Call Control System (UCCS) varies according to the size of each establishment and the infrastructure already in place.

The UCCS can be self-funded or can generate an income where appropriate.

Main solution

1. UCCS PIN System Software
2. UCCS PIN system Hardware
 - Server and software
 - Telephony hardware
 - Cordless/ analogue/ armoured handsets
 - Call recording hardware
3. Installation
4. Maintenance

Optional Extras

1. Cat5e In-cell/in-bedroom/wing based Network

Cost

The cost of the UCCS starts at 98p per prisoner or resident per day for a two year contract, this does not include VAT. Longer term contracts and outright purchase prices are available and can affect the price. The minimum contract is one year.
