

Hippo G-Cloud 15 Services

About Hippo

500+
experienced
specialists

Consultants and experts based throughout the UK with experience in Design, Product, Engineering and Delivery.

Combining
design, data and
delivery

Our approach bridges the gap between user-centred design principles and robust engineering, data and cyber practices, allowing our clients to thrive as modern organisations.

Equipped across
Government,
Healthcare and
Private Sectors

We deliver citizen-centric digital services at scale for Government and Healthcare and harness this capability to accelerate the success of customer programmes for the Private sector.

We put people
first

For digital services to be effective they need to be designed for people. We don't lead with technology. Instead we ask how we can solve problems for users from an experience perspective.

Our clients

We work with a growing range of public, private and third sector organisations

Our clients

We work with a wide range of public sector organisations:

Ministry
of Justice

Department
for Education

Hippo core values

Our core values guide the way we operate. They help us make decisions, and keep each other on track.

We believe that if we all act in line with these core values, together we can create a great culture.

At the heart of everything we are human, and we have to balance our ambitious and pragmatic qualities in order to succeed.

Human

Honest, collaborative
and inclusive

Ambitious

Passionate,
value-driven, and bold

Pragmatic

Realistic, adaptive and
focussed

Flexible delivery models

Full Hippo team

Deploying full Hippo multidisciplinary teams and squads, and fully delivering outcomes on behalf of our sponsors.

Part of the team

Adding our people and experience into client teams; providing coaching and mentoring, filling a capability gap, and/or leading teams.

Rainbow team

Collaborating with various different client and vendor teams to deliver as part of a successful 'rainbow team'.

Our technology partner ecosystem

Hippo's teams are multidisciplinary and have broad technical experience across a wide range of platforms.

Our approach is tech agnostic, meaning we can bring the right solutions to the table to solve complex problems.

Taking action to reduce climate change and protect the natural environment

Sustainable procurement

Supporting the growth of a diverse and resilient supply chain

Social equity

Creating opportunity and growth for all

Diversity, inclusion and belonging

Driving diversity, opportunities and equal reward in the tech sector

Health and wellbeing

Help our people, clients and communities to thrive

Why we're a different kind of partner

Nobody does scale
and pace like us

Broad capability,
deep specialism

We're a local partner
with national impact

We enhance your
skills and maturity

Identity Vendor Selection

Identity Vendor Selection

Digital Identity involves multiple technologies and business processes, with the goal of helping the right people or machines to access digital assets when needed for the right reasons, while keeping unauthorised access and fraud at bay.

We support organisations to select the right identity technology vendors, using our market experience and vendor selection framework to help ensure your programme is set up for success.

Features

- Customer and staff identity technology assessment and selection.
- Helping our client choose the best identity service (ID verification, authentication, biometric/MFA) for their business and user need.
- Selecting best identity product to match client use case, risk profile and commercial needs.
- Enabling solutions to be embedded into a customer onboarding/authentication flow.
- Provision of technical/service knowledge.
- Understanding the vendor market in detail to find the best solution.
- Identify/assess complementary services, solutions and products to meet user/business needs.

Benefits

- Improves identity service performance through selection of the right solution.
- Optimises cost effectiveness of identity solution selection.
- Increases user onboarding success metrics through right vendor selection.
- Increases confidence in the selection of the correct solution.
- Improves service usability and user satisfaction through correct vendor choice.
- Reduces onboarding friction and customer acquisition time.
- Improves confidence in your user identity proofing process.
- Elevates consumer confidence, growing trust to encourage repeat transactions.
