

Hippo G-Cloud 15 Services

About Hippo

500+
experienced
specialists

Consultants and experts based throughout the UK with experience in Design, Product, Engineering and Delivery.

Combining
design, data and
delivery

Our approach bridges the gap between user-centred design principles and robust engineering, data and cyber practices, allowing our clients to thrive as modern organisations.

Equipped across
Government,
Healthcare and
Private Sectors

We deliver citizen-centric digital services at scale for Government and Healthcare and harness this capability to accelerate the success of customer programmes for the Private sector.

We put people
first

For digital services to be effective they need to be designed for people. We don't lead with technology. Instead we ask how we can solve problems for users from an experience perspective.

Our clients

We work with a growing range of public, private and third sector organisations

Our clients

We work with a wide range of public sector organisations:

Ministry
of Justice

Department
for Education

Design & Research

Helping our clients understand the problems their users face, design the solution and measure its impact.

- User Research
- Content Design
- UX/UI Design
- Service Design

Hippo core values

Our core values guide the way we operate. They help us make decisions, and keep each other on track.

We believe that if we all act in line with these core values, together we can create a great culture.

At the heart of everything we are human, and we have to balance our ambitious and pragmatic qualities in order to succeed.

Human

Honest, collaborative
and inclusive

Ambitious

Passionate,
value-driven, and bold

Pragmatic

Realistic, adaptive and
focussed

Flexible delivery models

Full Hippo team

Deploying full Hippo multidisciplinary teams and squads, and fully delivering outcomes on behalf of our sponsors.

Part of the team

Adding our people and experience into client teams; providing coaching and mentoring, filling a capability gap, and/or leading teams.

Rainbow team

Collaborating with various different client and vendor teams to deliver as part of a successful 'rainbow team'.

Our technology partner ecosystem

Hippo's teams are multidisciplinary and have broad technical experience across a wide range of platforms.

Our approach is tech agnostic, meaning we can bring the right solutions to the table to solve complex problems.

Microsoft

Gold Cloud Platform
Silver Security

Social value

Environmental responsibility

Taking action to reduce climate change and protect the natural environment

Sustainable procurement

Supporting the growth of a diverse and resilient supply chain

Social equity

Creating opportunity and growth for all

Diversity, inclusion and belonging

Driving diversity, opportunities and equal reward in the tech sector

Health and wellbeing

Help our people, clients and communities to thrive

Why we're a different kind of partner

Nobody does scale
and pace like us

Broad capability,
deep specialism

We're a local partner
with national impact

We enhance your
skills and maturity

Data Analysis as a Service

Data Analysis as a Service

Our Data Analysis as a Service offers organisations comprehensive data insights and actionable intelligence to drive better decision-making and strategic planning. Leveraging advanced analytics tools and techniques, we help uncover patterns, trends, and opportunities in your data to enhance service delivery. With a focus on quality, efficiency, and compliance, our tailored service ensures you maximise value from your data in AWS, Azure, and Google Cloud Platform to make data-driven decisions with ease, improving operational efficiency and service delivery.

Features

- Advanced data mining for in-depth analysis insights.
- Customisable dashboards for real-time data visualisation.
- Advanced visualisation tools like Looker, Power BI, and Tableau.
- Predictive analytics for future trend forecasting.
- Machine learning algorithms for data pattern identification.
- Natural language processing for text data analysis.
- Secure data storage and processing for safety and compliance.
- Data cleaning and preparation for accurate results.
- Seamless integration with existing data sources.
- Collaborative platforms for cross-departmental data analysis.
- Scalable solutions tailored to your data needs.

Benefits

- Enhanced decision-making through data-driven insights.
- Improved operational efficiency across public services.
- Increased ability to target resources effectively.
- Mitigated risks with predictive analytics.
- Quicker responses to changing demands and trends.
- Cost-effective strategies from data-driven planning.
- Improved public service delivery based on data analysis.
- Better citizen experiences through data-driven improvements.
- Compliance with UK data protection laws and regulations.
- Ongoing support and maintenance for sustainable success.
