

Hippo G-Cloud 15 Services

About Hippo

500+
experienced
specialists

Consultants and experts based throughout the UK with experience in Design, Product, Engineering and Delivery.

Combining
design, data and
delivery

Our approach bridges the gap between user-centred design principles and robust engineering, data and cyber practices, allowing our clients to thrive as modern organisations.

Equipped across
Government,
Healthcare and
Private Sectors

We deliver citizen-centric digital services at scale for Government and Healthcare and harness this capability to accelerate the success of customer programmes for the Private sector.

We put people
first

For digital services to be effective they need to be designed for people. We don't lead with technology. Instead we ask how we can solve problems for users from an experience perspective.

Our clients

We work with a growing range of public, private and third sector organisations

Our clients

We work with a wide range of public sector organisations:

Ministry
of Justice

Department
for Education

Department
for Work &
Pensions

Services
Authority

Our offices

Our people

Product & Delivery

A user centred agile approach to defining, building and releasing innovative products & services that make a difference.

- Product Managers/Owners
- Delivery Managers/Scrum Mastery
- Business Architects/Analysts

Engineering & Data

Work with your current technology teams to provide a quality solution with ambition and pragmatism.

- Enterprise/Technical Architects
- Software Engineers (Back/Front/Full Stack)
- Test Engineers
- Data Analysts/Engineers
- Data Scientists
- Security Architects

Design & Research

Helping our clients understand the problems their users face, design the solution and measure its impact.

- User Research
- Content Design
- UX/UI Design
- Service Design

Hippo core values

Our core values guide the way we operate. They help us make decisions, and keep each other on track.

We believe that if we all act in line with these core values, together we can create a great culture.

At the heart of everything we are human, and we have to balance our ambitious and pragmatic qualities in order to succeed.

Human

Honest, collaborative
and inclusive

Ambitious

Passionate,
value-driven, and bold

Pragmatic

Realistic, adaptive and
focussed

Flexible delivery models

Full Hippo team

Deploying full Hippo multidisciplinary teams and squads, and fully delivering outcomes on behalf of our sponsors.

Part of the team

Adding our people and experience into client teams; providing coaching and mentoring, filling a capability gap, and/or leading teams.

Rainbow team

Collaborating with various different client and vendor teams to deliver as part of a successful 'rainbow team'.

Our technology partner ecosystem

Hippo's teams are multidisciplinary and have broad technical experience across a wide range of platforms.

Our approach is tech agnostic, meaning we can bring the right solutions to the table to solve complex problems.

Partner

Gold Cloud Platform
Silver Security

Social value

Environmental responsibility

Taking action to reduce climate change and protect the natural environment

Sustainable procurement

Supporting the growth of a diverse and resilient supply chain

Social equity

Creating opportunity and growth for all

Diversity, inclusion and belonging

Driving diversity, opportunities and equal reward in the tech sector

Health and wellbeing

Help our people, clients and communities to thrive

Why we're a different kind of partner

Nobody does scale
and pace like us

Broad capability,
deep specialism

We're a local partner
with national impact

We enhance your
skills and maturity

Architecture as a Service

Architecture as a Service

Hippo provides strategic consulting on your Enterprise Architecture, the Solutions Architecture of services, and the Technical Architecture of software deliveries.

We provide expert architects with a wide range of specialisms, including data, AI, networking, cybersecurity, and identity. Advice covers all stages, from initial planning, through build/buy analysis, to detailed requirements.

We advise you on the best use of technology to deliver whole service outcomes, helping you to compose cloud and SaaS services to meet your needs. We'll ensure that choices are reliable, deliver secure outcomes efficiently, and are tailored to the needs of your organisation.

Features

- Formal design of complex technology systems.
- Evaluation of existing systems.
- Options and market analysis.
- Architectural diagrams, reports and decision records.
- End-to-end systems design.
- Cloud-native infrastructure planning.
- Technical leadership for complex software projects.
- Optimising data flows and service behaviour.

Benefits

- De-risks engineering procurement through detailed plans.
- Ensures visibility of technology programmes.
- Reduces vendor lock-in.
- Assures large projects independently.
- Enables better use of data.
- Identifies opportunities for AI and automation in processes.
- Informs multi-year spend plans with better forecasting.
- Aligns technology choices and structures to business strategy.
