

Hippo G-Cloud 15 Services

About Hippo

500+
experienced
specialists

Consultants and experts based throughout the UK with experience in Design, Product, Engineering and Delivery.

Combining
design, data and
delivery

Our approach bridges the gap between user-centred design principles and robust engineering, data and cyber practices, allowing our clients to thrive as modern organisations.

Equipped across
Government,
Healthcare and
Private Sectors

We deliver citizen-centric digital services at scale for Government and Healthcare and harness this capability to accelerate the success of customer programmes for the Private sector.

We put people
first

For digital services to be effective they need to be designed for people. We don't lead with technology. Instead we ask how we can solve problems for users from an experience perspective.

Our clients

We work with a growing range of public, private and third sector organisations

Our clients

We work with a wide range of public sector organisations:

Ministry
of Justice

Department
for Education

Department
for Work &
Pensions

Design & Research

Helping our clients understand the problems their users face, design the solution and measure its impact.

- User Research
- Content Design
- UX/UI Design
- Service Design

Hippo core values

Our core values guide the way we operate. They help us make decisions, and keep each other on track.

We believe that if we all act in line with these core values, together we can create a great culture.

At the heart of everything we are human, and we have to balance our ambitious and pragmatic qualities in order to succeed.

Human

Honest, collaborative
and inclusive

Ambitious

Passionate,
value-driven, and bold

Pragmatic

Realistic, adaptive and
focussed

Flexible delivery models

Full Hippo team

Deploying full Hippo multidisciplinary teams and squads, and fully delivering outcomes on behalf of our sponsors.

Part of the team

Adding our people and experience into client teams; providing coaching and mentoring, filling a capability gap, and/or leading teams.

Rainbow team

Collaborating with various different client and vendor teams to deliver as part of a successful 'rainbow team'.

Our technology partner ecosystem

Hippo's teams are multidisciplinary and have broad technical experience across a wide range of platforms.

Our approach is tech agnostic, meaning we can bring the right solutions to the table to solve complex problems.

Microsoft

Social value

Environmental responsibility

Taking action to reduce climate change and protect the natural environment

Sustainable procurement

Supporting the growth of a diverse and resilient supply chain

Social equity

Creating opportunity and growth for all

Diversity, inclusion and belonging

Driving diversity, opportunities and equal reward in the tech sector

Health and wellbeing

Help our people, clients and communities to thrive

Why we're a different kind of partner

Nobody does scale
and pace like us

Broad capability,
deep specialism

We're a local partner
with national impact

We enhance your
skills and maturity

Data Lake Implementation

Data Lake Implementation

Our Data Lake Implementation service is designed to help UK Public Sector organisations leverage the power of data to drive innovation and improve service delivery. We use proven methodologies, frameworks, and cutting-edge cloud technologies such as AWS, Google Cloud Platform (GCP), and Azure to create a scalable, secure, and efficient data lake tailored to your needs.

Our approach is centred on user and business outcomes, to ensure your data is accessible, understandable, and actionable for all stakeholders.

Features

- Tailored data lake design meeting specific organisational requirements.
- Utilisation of cloud platforms: AWS, GCP, Azure.
- Integration with popular products: Snowflake, Databricks, and cloud provider solutions.
- Seamless ETL with advanced tools like Five Tran and others.
- Secure, scalable architecture for future growth and change.
- Customisable data governance and compliance frameworks.
- Real-time data ingestion and processing capabilities.
- Advanced analytics and visualisation tools for data insights.
- Expert consulting in data management and architecture.
- User-centric approach for easy data access and understanding.

Benefits

- Improves decision-making through enhanced data insights.
- Increases operational efficiency with automated data processes.
- Provides future-proof solutions adaptable to emerging technologies.
- Enhances data security and compliance with UK standards.
- Improves collaboration across departments through shared data access.
- Simplifies data governance ensuring consistent data management.
- Streamlines reporting and analytics for strategic planning.
- Improves time-to-insight for informed business decisions.
- Reduces cost through efficient data infrastructure.
- Enhances user experience with intuitive data interfaces.
