

Hippo G-Cloud 15 Services

About Hippo

500+
experienced
specialists

Consultants and experts based throughout the UK with experience in Design, Product, Engineering and Delivery.

Combining
design, data and
delivery

Our approach bridges the gap between user-centred design principles and robust engineering, data and cyber practices, allowing our clients to thrive as modern organisations.

Equipped across
Government,
Healthcare and
Private Sectors

We deliver citizen-centric digital services at scale for Government and Healthcare and harness this capability to accelerate the success of customer programmes for the Private sector.

We put people
first

For digital services to be effective they need to be designed for people. We don't lead with technology. Instead we ask how we can solve problems for users from an experience perspective.

Our clients

We work with a growing range of public, private and third sector organisations

Our clients

We work with a wide range of public sector organisations:

Ministry
of Justice

Department
for Education

Design & Research

Helping our clients understand the problems their users face, design the solution and measure its impact.

- User Research
- Content Design
- UX/UI Design
- Service Design

Hippo core values

Our core values guide the way we operate. They help us make decisions, and keep each other on track.

We believe that if we all act in line with these core values, together we can create a great culture.

At the heart of everything we are human, and we have to balance our ambitious and pragmatic qualities in order to succeed.

Human

Honest, collaborative
and inclusive

Ambitious

Passionate,
value-driven, and bold

Pragmatic

Realistic, adaptive and
focussed

Flexible delivery models

Full Hippo team

Deploying full Hippo multidisciplinary teams and squads, and fully delivering outcomes on behalf of our sponsors.

Part of the team

Adding our people and experience into client teams; providing coaching and mentoring, filling a capability gap, and/or leading teams.

Rainbow team

Collaborating with various different client and vendor teams to deliver as part of a successful 'rainbow team'.

Our technology partner ecosystem

Hippo's teams are multidisciplinary and have broad technical experience across a wide range of platforms.

Our approach is tech agnostic, meaning we can bring the right solutions to the table to solve complex problems.

Microsoft

Gold Cloud Platform
Silver Security

Social value

Environmental responsibility

Taking action to reduce climate change and protect the natural environment

Sustainable procurement

Supporting the growth of a diverse and resilient supply chain

Social equity

Creating opportunity and growth for all

Diversity, inclusion and belonging

Driving diversity, opportunities and equal reward in the tech sector

Health and wellbeing

Help our people, clients and communities to thrive

Why we're a different kind of partner

Nobody does scale
and pace like us

Broad capability,
deep specialism

We're a local partner
with national impact

We enhance your
skills and maturity

Testing as a Service

Testing as a Service

Ensure the quality of your cloud service against functional and non-functional requirements. This supports you in ensuring that cloud services are configured to your needs, meeting business requirements, and supporting you in user acceptance testing.

Hippo offers a fully-managed testing service for software systems, incorporating functional testing, non-functional testing, automation testing. Automation, manual or hybrid testing, tailored to your needs. We will plan and perform testing, leaving you with a clear report. Where possible, we enable you to re-run tests yourself in future, to track compliance over time.

Features

- Design of test strategy and authoring of test plans.
- Execution of manual test plans.
- Implementation of automated tests from test plans.
- Performance testing for sustained and compressed demand.
- Integration of tests into release processes.
- Static and Dynamic Assurance Testing for security and quality testing.
- Testing of Web Applications, APIs, Native Apps.
- Testing AI services, chatbots, large language models (LLM).
- Formal reports on test outcomes.
- Technology agnostic, Hippo uses the best tools for your technology choices.

Benefits

- Provides high quality, repeatable test cases.
- Provides independent verification of quality of commissioned software.
- Provides automatic screenshots, can be integrated to documentation.
- Monitors visual differences as services progress.
- Avoids regressions of old bugs.
- Improves reliability of deployment practices.
