

Hippo G-Cloud 15 Services

About Hippo

500+
experienced
specialists

Consultants and experts based throughout the UK with experience in Design, Product, Engineering and Delivery.

Combining
design, data and
delivery

Our approach bridges the gap between user-centred design principles and robust engineering, data and cyber practices, allowing our clients to thrive as modern organisations.

Equipped across
Government,
Healthcare and
Private Sectors

We deliver citizen-centric digital services at scale for Government and Healthcare and harness this capability to accelerate the success of customer programmes for the Private sector.

We put people
first

For digital services to be effective they need to be designed for people. We don't lead with technology. Instead we ask how we can solve problems for users from an experience perspective.

Our clients

We work with a growing range of public, private and third sector organisations

Our clients

We work with a wide range of public sector organisations:

Ministry
of Justice

Department
for Education

Helping our clients understand the problems their users face, design the solution and measure its impact.

- User Research
- Content Design
- UX/UI Design
- Service Design

Hippo core values

Our core values guide the way we operate. They help us make decisions, and keep each other on track.

We believe that if we all act in line with these core values, together we can create a great culture.

At the heart of everything we are human, and we have to balance our ambitious and pragmatic qualities in order to succeed.

Human

Honest, collaborative
and inclusive

Ambitious

Passionate,
value-driven, and bold

Pragmatic

Realistic, adaptive and
focussed

Flexible delivery models

Full Hippo team

Deploying full Hippo multidisciplinary teams and squads, and fully delivering outcomes on behalf of our sponsors.

Part of the team

Adding our people and experience into client teams; providing coaching and mentoring, filling a capability gap, and/or leading teams.

Rainbow team

Collaborating with various different client and vendor teams to deliver as part of a successful 'rainbow team'.

Our technology partner ecosystem

Hippo's teams are multidisciplinary and have broad technical experience across a wide range of platforms.

Our approach is tech agnostic, meaning we can bring the right solutions to the table to solve complex problems.

Microsoft
Partner

Gold Cloud Platform
Silver Security

Social value

Environmental responsibility

Taking action to reduce climate change and protect the natural environment

We're a local partner
with national impact

We enhance your
skills and maturity

Data Platform and Support

Data Platform and Support

Our Data Platforms and Support service provides UK public sector organisations with cutting-edge, user-centred data solutions tailored to your needs. We build scalable, reliable data platforms that enhance your data operations and decision-making capabilities.

By utilising leading cloud-native technologies such as Snowflake, Databricks, and other modern frameworks, we deliver secure, efficient data management systems designed for your mission-critical functions. Our 24/7/365 managed support ensures your data platforms are maintained at optimal performance, safeguarding data integrity and compliance with UK regulations.

Features

- Customised data platforms for your specific public sector needs.
- Scalable solutions for growing data demands and evolving requirements.
- Integration with existing systems and frameworks for continuity.
- Secure data storage with encryption and access control measures.
- High-performance data processing with tools like Databricks.
- Real-time data warehousing and analytics with Snowflake.
- Cloud-based options for flexibility and scalability.
- User-centred design for intuitive interfaces and data accessibility.
- Automated monitoring and alerts for proactive issue resolution.
- Regular updates and maintenance for continuous optimisation.

Benefits

- Enhances decision-making from reliable, user-friendly data platforms.
- Improves operational efficiency across all departments and functions.
- Increases compliance with UK data protection laws and standards.
- Creates resilient data infrastructure ensuring high availability and security.
- Seamlessly integrates with existing systems for a unified experience.
- Reduces cost through efficient data management and processes.
- Increases scalability for future data growth and requirements.
- Provides ongoing support and maintenance for uninterrupted services.
- Improves response times to public needs and demands.
- Improves overall user experience through data-driven improvements.
