

Hippo G-Cloud 15 Services

About Hippo

500+
experienced
specialists

Consultants and experts based throughout the UK with experience in Design, Product, Engineering and Delivery.

Combining
design, data and
delivery

Our approach bridges the gap between user-centred design principles and robust engineering, data and cyber practices, allowing our clients to thrive as modern organisations.

Equipped across
Government,
Healthcare and
Private Sectors

We deliver citizen-centric digital services at scale for Government and Healthcare and harness this capability to accelerate the success of customer programmes for the Private sector.

We put people
first

For digital services to be effective they need to be designed for people. We don't lead with technology. Instead we ask how we can solve problems for users from an experience perspective.

Our clients

We work with a growing range of public, private and third sector organisations

Our clients

We work with a wide range of public sector organisations:

Ministry
of Justice

Department
for Education

Department
for Work &
Pensions

Department
for Environment
Food & Rural Affairs

Government
Digital Service

Home Office

Government
Property
Agency

Ministry
of Defence

NHS
Business
Services
Authority

Our offices

Our people

Product & Delivery

A user centred agile approach to defining, building and releasing innovative products & services that make a difference.

- Product Managers/Owners
- Delivery Managers/Scrum Mastery
- Business Architects/Analysts

Engineering & Data

Work with your current technology teams to provide a quality solution with ambition and pragmatism.

- Enterprise/Technical Architects
- Software Engineers (Back/Front/Full Stack)
- Test Engineers
- Data Analysts/Engineers
- Data Scientists
- Security Architects

Design & Research

Helping our clients understand the problems their users face, design the solution and measure its impact.

- User Research
- Content Design
- UX/UI Design
- Service Design

Hippo core values

Our core values guide the way we operate. They help us make decisions, and keep each other on track.

We believe that if we all act in line with these core values, together we can create a great culture.

At the heart of everything we are human, and we have to balance our ambitious and pragmatic qualities in order to succeed.

Human

Honest, collaborative
and inclusive

Ambitious

Passionate,
value-driven, and bold

Pragmatic

Realistic, adaptive and
focussed

Flexible delivery models

Full Hippo team

Deploying full Hippo multidisciplinary teams and squads, and fully delivering outcomes on behalf of our sponsors.

Part of the team

Adding our people and experience into client teams; providing coaching and mentoring, filling a capability gap, and/or leading teams.

Rainbow team

Collaborating with various different client and vendor teams to deliver as part of a successful 'rainbow team'.

Our technology partner ecosystem

Hippo's teams are multidisciplinary and have broad technical experience across a wide range of platforms.

Our approach is tech agnostic, meaning we can bring the right solutions to the table to solve complex problems.

Microsoft
Partner

Gold Cloud Platform
Silver Security

Social value

Environmental responsibility

Taking action to reduce climate change and protect the natural environment

Sustainable procurement

Supporting the growth of a diverse and resilient supply chain

Social equity

Creating opportunity and growth for all

Diversity, inclusion and belonging

Driving diversity, opportunities and equal reward in the tech sector

Health and wellbeing

Help our people, clients and communities to thrive

Why we're a different kind of partner

Nobody does scale
and pace like us

Broad capability,
deep specialism

We're a local partner
with national impact

We enhance your
skills and maturity

Building prototyping skills

Building prototyping skills

A two-day workshop demonstrating how our digital experts use digital tools to aid evaluation of a user journey. Based on the challenges you bring to the session, we will shape your experience to the outcomes you are trying to reach.

You will gain insights into using evidence to determine opportunities for design, generating ideas and applying design principles to prototype solutions that meet the needs of real people.

You will learn new ways of supporting design teams when co-designing or reviewing work, ensuring that your input is valuable to moving things forward.

Features

- Includes reframing problems, assumption mapping, idea generation and design critiques
- Awareness of design principles in real experiences and client objectives
- Face to face or fully remote, adapting to maximise value
- Adapts to existing knowledge of key prototyping tools and techniques
- Flexible workshop with real time adaptations on group assessed abilities
- Time in between to enable active experimentation and reflective observation
- Reusable tools and techniques, increasing internal capability
- Design thinking methodologies that can be used regardless of role
- Design review techniques elevating collaboration and feedback to design teams
- Client owned artefacts that can be iterated after the workshop

Benefits

- Work collaboratively with your team and others
- Upskills people using a 'learn by doing' approach
- Teaches how to apply these techniques again
- Increases understanding on design thinking
- Teaches about Gestalt Principles
- Provides prototyping experience
- Experience and appreciation of evidence based design
- Determines constructive feedback for works in progress
- Enables effective agile teams at pace.
