GRC, Strategy, and Performance (GSP) Secure

Riskconnect's GSP Secure platform provides an enterprise-wide governance, risk, and compliance solution for UK public sector organizations requiring on-premise deployment. With all solution modules included as standard and support for up to 500 users, GSP Secure is designed for large-scale deployments in security-classified environments, with flexible managed or supported service options to meet your operational needs.

Annual License

On-Premise Support Options

To provide exceptional support, GSP Secure customers must purchase one of the following support options.

Support Model	Description	Cost
Riskconnect-Managed	Riskconnect has remote access and manages the Riskconnect application on the customer's behalf. Riskconnect is responsible for deploying and running the Riskconnect Applications. Riskconnect will deploy and manage all releases.	Calculated based on estimated number of days and professional services resource type required (SC or DV Cleared). See Professionals Services Rates below.
Riskconnect Supported	When remote access is not possible, a tailored solution for onsite support can be provided. Riskconnect will work with the relevant infrastructure provider to support the ongoing management of the application and database updates, installations, patching, testing, support, and investigations.	Calculated based on estimated number of days and professional services resource type required (SC or DV Cleared). See Professionals Services Rates below.

Professional Services Rates

Type	Description	Price
Professional Services (One time)	Security Cleared Resource (SC / DV)	£1,500 / day
Professional Services (Annual)	Security Cleared Resource (SC / DV) (Price per FTE)	£243,000 p.a. (Per FTE)
Professional Services (Annual)	Managed Services Help Desk (Price per FTE)	£153,000 p.a. (Per FTE)

The stated rates exclude Travel and Expenses (T&E). Where travel is required outside of the M25, any associated costs will be charged separately.
