Riskconnect Business Continuity & Resilience Pricing

Our commercial model is based on wanting to help you to embed Business Continuity within your Organisation. Enterprise pricing based on company size removes user-seat constraints, allowing organizations to extend Business Continuity tasks, processes, and strategic visibility to all relevant employees. This enables a more resilient BCM program by supporting broad participation and awareness without having to design or compromise the strategy around licensing limits. We find that this model is very popular with our clients and provides flexibility.

We can provide enhanced services as part of implementation, including, but not limited to review, data gathering, Business Impact Analysis and testing/exercising. Fees are project specific and to be confirmed.

Annual License

	Description	Cost
Core Software license	Includes: • Enterprise license for 250 employees across the organisation • All standard functionality (BIAs, BC Plans, ITDR Plans, Risk, Exercising, Actions, Reporting) • Hosting on our high availability infrastructure within the UK • Support for administrators • Mobile Device Applications for all users • All software upgrades and updates to the functionality	£24,000 per year based on a 250-employee bundle. This will increase with the number of employees For organisations with more than 250 employees, the maximum additional cost is £4,000 per 250 employee bundle. The higher the number of employees an organization has, the lower the per employee cost will become.

Optional Add on	Description	Cost
Notifications	Advanced Notifications include SMS, email, voice, and conference calling capabilities, with the ability to send unlimited messages during disruption, and up run to 10 exercises per year to all employees.	15% of core software license £2,000 one off implementation and training fee.
Crisis Management Module	Access to advanced crisis management capabilities including geolocation, secure chat, and enhanced mobile app capabilities.	30% of core software license £2,000 one off implementation and training fee.
Operational Resilience	Strategic BIAs at a service level, including customer segments, delivery channels, obligations and plausible scenarios to allow you to understand the end-to-end service dependencies.	30% of core software license £2,000 one off implementation and training fee
Connect Data Service	For use where you need to combine data from several sources for import (i.e. multiple HR databases).	£6,000 per year per data source
Notification connector	If you have an existing Notification provision with AlertMedia, Everbridge, F24, or OnSolve, we can provide an integration to allow you to trigger those notifications from within our system.	£8,000 per year
Threat Intelligence	The ability to receive alerts based on type of threat or location of threat. Alert rules then allow you to use this threat information to trigger activity such as auto alerting and auto incident creation.	£16,000 per year for 7 assets/locations £24,000 per year for 24 assets/locations £32,000 per year for 49 assets/locations

Artificial Intelligence	Use AI to suggest plan sections and generate suggested content in your plans.	Free 90-day trial – generate 50,000 words per month during the free usage period. 5% of core software license

Implementation Services

	Description	Cost
Implementation	The implementation fee covers all activities as part of the implementation process: • Project management including implementation of continuity and crisis management • Technical configuration • UAC support • Training This is a fixed fee – not per hour, and not only does this offer good value, but it also ensures your team will be fully trained, and have a program fit for purpose in place, without incurring additional costs.	£20,000 for standard implementation- up to 250 employees. £40,000 Enhanced implementation for over 250 employees
Professional Service Day Rate	Professional Services can be used for the following activities: • Project management including implementation of Active Risk Manager • Technical configuration • UAT support • Training • Upgrades	£1,600

The stated rates exclude Travel and Expenses (T&E). Where travel is required outside of the M25, any associated costs will be charged separately.
