Oracle Fusion Cloud ERP/HCM Quarterly Release Impact Assessments

Deliverable

The Oracle Fusion Cloud ERP/HCM Quarterly Release Impact Assessments produces a risk-based summary reporting the changes in the Quarterly Fusion Cloud ERP and Fusion Cloud HCM Releases that have the highest impact on security, access controls and business process controls.

The cost of this service is £2,500 + VAT per quarter, based on a minimum of 1 year contract.

Standard price **£2,500 per quarter**

Out of scope / assumptions

- We will not audit or otherwise test or verify the information given to us during the Services.
- Information provided as part of this service is based on our review of New Feature Summaries provided by Oracle. Where Oracle's documentation is incomplete or inaccurate, this may impact on the outputs we provide.
- We will review and appraise the New Features for Financials, Procurement, HR and Payroll as part of the Oracle Fusion Cloud ERP/HCM Service. Other services are out of scope.

Extra services

We can help you better understand and investigate the impact of any forthcoming Quarterly Release changes as part of our **Oracle Fusion Cloud ERP/HCM Security and Controls Implementation Support** service, listed on G-Cloud. This can also help remediate any security and controls issues arising from the Quarterly Release

Additionally, we recommend our **Oracle Fusion Cloud ERP Security and Controls Healthcheck Assessment** service and our **Oracle Fusion Cloud HCM Security and Controls Healthcheck Assessment** service, both of which are also listed on G-Cloud. These will allow organisations to better understand Fusion security and access controls challenges that currently require remediation.

Our Quarterly Security and Controls Release Impact Assessments are also available as part of our **Oracle Fusion Cloud ERP/HCM Fusion Security and Controls Managed Service**, listed on G-Cloud. Along with providing the Release Impact Assessment, the Managed Service also includes:

- A quarterly Fusion Security and Controls Healthcheck, and
- suggested security updates for custom Roles that Systems Risk Services has designed for the organisation where new access controls issues or loopholes have been identified as part of the Quarterly Release.
