About Admincontrol

Admincontrol is a leading supplier of virtual data rooms and board portals. Admincontrol's head office is located in Norway and the company has customers worldwide. The relevant local offices in the UK are London and Glasgow.

Admincontrol offers web-based solutions for secure interaction and the user-friendly sharing of information in business-critical processes, as well as the storage of and access to sensitive documents. Since 2005, Admincontrol has developed solutions for use in connection with boardroom work, due diligence, tender processes and projects.

Why choose a Board Portal from Admincontrol?

Admincontrol is Europe's leading supplier of Board Portal services. With over 130,000 users per day Admincontrol provides a secure, efficient and importantly easy to use intuitive service. Admincontrol continually invests in product development with on average 6 – 8 functionality upgrades per annum.

We supply:

- An intuitive interaction solution that is simple to use.
- A universally accessible service via any browser based device as well as tablets and mobile phones
- State-of-the-art security and control of information and documents with ISO27001
- Support 24/7/365 for all users
- A GDPR ready service

PRIVATE

Administration

- Administrators can invite, monitor and cancel users
- Easy to define permissions for printing, downloading and screen viewing
- Ongoing management of access and permissions at both role and document levels

Service and support

Admincontrol operates two support teams in the UK, London (City) and Glasgow. Service includes

- Initial set up included within license
- Option for co-administrator from Admincontrol
- Online and onsite training dependant upon size of portal
- Assistance with scanning and uploading of documents as required
- Adjustment and adaptation of the solution as required
  Migration from alternative Board Portal providers

Board Evaluation from Admincontrol

Eliminate the time-consuming process of manually designing and distributing questionnaires. Our board survey is ready to be distributed instantly within the Board Portal. Plus you can customise it to your own needs

- Based in best practise
- Add you own questions
- Hide irrelevant questions

More information can be found here https://admincontrol.com/board-evaluation

Security

Admincontrol has established processes, functions and mechanisms to ensure the highest possible level of security for our customers' documents and data.

We can guarantee:

- Optimal technical security for operation and information exchange
- Complete confidentiality from Admincontrol
- Full traceability and reporting of all activity in the solution
- All documents can be security-classified (re-classified) with an individually defined watermark.
- Option to print/not print and hide/unhide documents and users
- Password protection and two-factor login
- Documents in PDF format can be displayed in the viewer (as an image on the screen without leaving 'tracks' on the client PC)
- Admincontrol has ISO 27001 in place and is happy to share our independent annual audit of security protocols (SOC2 Audit) under non disclosure agreement.
