

Tribe Social Action Platform

Pricing Document

Tribe License

30p per head of population per year

The license fee is billed based on the number of citizens within scope of the commissioning government organisation. This cost is inclusive of a license fee, on-boarding training, hosting, support and VAT. The software offers the following benefits:

- Signposting of support services enables social prescribing
- Management of council volunteer schemes for residents
- Invite voluntary organisations to manage their work digitally through Tribe
- Emergency planning of voluntary resources
- Elected member tools to build and understand social action in communities

This license also includes the micro-commissioning module which provides local authorities with the ability to provision domiciliary care through the digital platform, leveraging micro-enterprises and new business to provide care at a reduced cost to traditional brokerage. There is a 3% transaction charge for jobs commissioned through the service.

Additional Resource

Rates for technical integrations

Costs for technical integrations with third-party systems will follow the rates on the SFIA rate card.
