Service description

Goaco's ETL/ELT Design, Migration, and Management services unlock your data's power. Our professionals design and implement efficient data pipelines for seamless integration and transformation. With ongoing management, we streamline processes, empowering informed decisions and business growth. Trust us for tailored solutions maximizing your data assets' value.

- Streamlined data extraction, transformation, and loading processes for efficiency.
- Flexible integration with diverse data sources for comprehensive analytics.
- Scalable architecture to accommodate growing data volumes and business needs.
- Automated workflows for timely and accurate data processing and delivery.
- Robust error handling and logging mechanisms for data quality assurance.
- Customisable data pipelines tailored to specific organisational requirements.
- Real-time data processing capabilities for timely insights and decision-making.
- Support for batch and streaming data processing workflows for versatility.
- Integration with cloud platforms for enhanced scalability and accessibility.
- Comprehensive metadata management for enhanced data governance and compliance.

- Improved data quality and accuracy through systematic extraction and transformation.
- Enhanced data visibility and accessibility for informed decision-making.
- Increased operational efficiency with automated data processing workflows.
- Faster time-to-insight through timely data delivery and processing.
- Reduced manual intervention and human error in data processing tasks.
- Greater agility and responsiveness to changing business requirements.
- Cost-savings through efficient use of resources and optimised data processing.
- Scalability to handle growing data volumes and evolving business needs.
- Enhanced data governance and compliance with robust metadata management.
- Empowered analytics and business intelligence initiatives with reliable data pipelines.

IASME certifications

Delivering **people-focused** outcomes through **innovation**

Goaco has delivered for the public and private sectors across the globe

Delivering excellence for over 15 years

Our Services

UCD User-Centered Design

Our User-Centred Design approach starts by understanding the root problem and what users truly need. Through user research, service design, and clear content, we create journeys that feel natural and accessible. It's not about trends, it's about meaningful outcomes and experiences that genuinely help.

Digital Delivery

As a delivery partner with your organisation, our service is primarily outcomes based, implementing products and services across portfolios & programmes in an iterative manner (Agile & Waterfall) with a focus on the benefits.

Cyber Security

Goaco partner with public & private sector organisations, protecting them from the threat of known and unknown security threats. We help you to develop security maturity, become certified, conduct security/penetration testing and protect from cyber-attacks 24x7.

Data

Goaco's Data Services span the full lifecycle from collection and management to advanced analytics and AI-driven insights. Ensuring accuracy, security, and scalability, we help businesses make smarter decisions, modernise operations, and drive growth.

Cloud

Our service offerings involve transforming your organisation to use the Cloud across Google Cloud, MS Azure and AWS, embedding automation (infrastructure-as-code) for cost-saving, and monitoring and management of your infrastructure for efficiency.

Artificial Intelligence

At Goaco we enable businesses to harness AI to transform how they operate, compete, and grow. Our AI Services span assessment, strategy, design, and implementation covering automation, predictive analytics, generative AI, and custom machine learning solutions.

Managed Services

Goaco's ITIL aligned support team works around the clock to keep your IT running at peak performance levels, using industry leading tools to constantly improve and ensure you are in safe hands.

Software Development

Goaco provide you with tech-agnostic custom, Web, App (mobile) and Low/No code (DynamicsCRM/PowerApps) development from design, build, launch & management. We embed as a development partner providing you the value of leveraging our experience.

Personnel clearance levels (UK)

At a minimum, our UK personnel hold a Government approved BPSS clearance.

Our Penetration Testers and Cyber Security consultants hold a minimum of Security Clearance vetted with the Ministry of Defence (UK Government). For SECRET, personnel with DV Clearance are available, which is the highest level across the UK Government.

International branches are covered by the same principles as BPSS, including identity verification, references and criminal record checks.

This is the value we bring to other regions and countries, with the assurance of personnel accessing sensitive data.

Our partnerships

Our values

Equality

We continually review our **promotion** of inclusivity, **diversity** and lifelong **learning**.

Integrity

Honesty and **integrity** have built a culture of trust and openness within the Goaco network.

Unity

We **recognise** the **power** of **diversity** and difference in a **team** to learn and grow as individuals and an organisation.

Respect

Respecting others **boundaries**, opinions and **skill sets** is **important** to us at the core of our **company culture**.

Excellence

We take pride in delivering **excellence** in everything we do and **expect** the same **passion** and drive from our colleagues.

Our culture

Behind every success story, innovation and milestone achieved, there are dedicated individuals who go above and beyond to make it happen.

One Team

Company Socials

Creating Opportunities

Valuing Diversity

Generating Solutions
