Service description

Goaco's UK GDPR Health Check evaluates organisational compliance by assessing governance practices, data handling controls and operational behaviours. We identify gaps affecting regulatory exposure and deliver prioritised actions, strengthening organisations accountability, improving risk management and preparing for audits while supporting digital transformation activities across cloud, hybrid and enterprise environments.

- Aligns assessments with UK GDPR NIST and ISO27001 frameworks.
- Uses consultants holding BPSS SC and DV clearances.
- Evaluates governance practices identifying regulatory compliance gaps.
- Reviews data handling processes highlighting priority risks.
- Provides remediation actions supporting GDPR improvement programmes.
- Delivers leadership reporting aligned to regulatory expectations.
- Supports accountability structures across organisational functions.
- Integrates GDPR with security and privacy requirements.
- Conducts readiness reviews supporting upcoming audits.
- Offers flexible models for varied organisational maturity levels.

- **Strengthens GDPR compliance using framework-aligned recommendations.**
- **Reduces regulatory exposure through targeted improvement actions.**
- **Provides assurance using vetted GDPR and security specialists.**
- **Enhances audit readiness across complex organisational environments.**
- **Supports leadership understanding through clear risk-based insights.**
- **Builds sustainable privacy and compliance capability over time.**
- **Reduces operational disruption by improving data handling practices.**
- **Supports digital transformation with privacy embedded proactively.**
- **Enhances user trust through strengthened compliance practices.**
- **Provides visibility enabling better strategic compliance decisions.**

Our services

UCD User-Centered Design

Our User-Centred Design approach starts by understanding the root problem and what users truly need. Through user research, service design, and clear content, we create journeys that feel natural and accessible. It's not about trends, it's about meaningful outcomes and experiences that genuinely help.

Digital Delivery

As a delivery partner with your organisation, our service is primarily outcomes based, implementing products and services across portfolios & programmes in an iterative manner (Agile & Waterfall) with a focus on the benefits.

Cyber Security

Goaco partner with public & private sector organisations, protecting them from the threat of known and unknown security threats. We help you to develop security maturity, become certified, conduct security/penetration testing and protect from cyber-attacks 24x7.

Data

Goaco's Data Services span the full lifecycle from collection and management to advanced analytics and AI-driven insights. Ensuring accuracy, security, and scalability, we help businesses make smarter decisions, modernise operations, and drive growth.

Cloud

Our service offerings involve transforming your organisation to use the Cloud across Google Cloud, MS Azure and AWS, embedding automation (infrastructure-as-code) for cost-saving, and monitoring and management of your infrastructure for efficiency.

Artificial Intelligence

At Goaco we enable businesses to harness AI to transform how they operate, compete, and grow. Our AI Services span assessment, strategy, design, and implementation covering automation, predictive analytics, generative AI, and custom machine learning solutions.

Managed Services

Goaco's ITIL aligned support team works around the clock to keep your IT running at peak performance levels, using industry leading tools to constantly improve and ensure you are in safe hands.

Software Development

Goaco provide you with tech-agnostic custom, Web, App (mobile) and Low/No code (DynamicsCRM/PowerApps) development from design, build, launch & management. We embed as a development partner providing you the value of leveraging our experience.

Personnel clearance levels (UK)

At a minimum, our UK personnel hold a Government approved BPSS clearance.

Our Penetration Testers and Cyber Security consultants hold a minimum of Security Clearance vetted with the Ministry of Defence (UK Government). For SECRET, personnel with DV Clearance are available, which is the highest level across the UK Government.

International branches are covered by the same principles as BPSS, including identity verification, references and criminal record checks.

This is the value we bring to other regions and countries, with the assurance of personnel accessing sensitive data.
