Service description

Goaco Site Reliability Engineering (SRE) services ensures the reliability, scalability, and performance of your digital infrastructure. With a focus on automation, monitoring, and proactive maintenance, we optimise system availability and minimise downtime. Trust us to fortify your operations and keep your services always running smoothly.

- Proactive monitoring and alerting to prevent system failures.
- Implementation of reliability best practices, such as error budgeting.
- Automation of routine tasks to reduce manual intervention.
- Continuous improvement through post-incident reviews and retrospectives.
- Collaboration with development teams to improve system reliability.
- Service Level Objectives (SLOs) and Service Level Indicators (SLIs).
- Deployment of fault-tolerant architectures and redundancy measures.
- Capacity planning to ensure systems can handle expected loads.
- Disaster recovery planning and testing to minimise downtime.
- On-call rotations for rapid response to incidents.

Service **benefits**

- Increased system uptime and reliability for improved user experience.
- Reduced mean time to resolution (MTTR) for incidents.
- Enhanced scalability to accommodate growing user demand.
- Minimised impact of failures through proactive measures.
- Improved collaboration between development and operations teams.
- Clear visibility into system health and performance metrics.
- Better alignment of reliability goals with business objectives.
- Cost savings by optimising resource usage and avoiding downtime.
- Enhanced customer trust and satisfaction with reliable services.
- Continuous learning and improvement culture within the organisation.

Our certifications

Our certifications are recognised **globally**

Goaco are proudly certified to:
ISO 9001, ISO 4001, ISO 27001 & ISO 20000

IASME certifications

Delivering **people-focused** outcomes through **innovation**

Goaco has delivered for the public and private sectors across the globe

Delivering excellence for over 15 years

Our Services

UCD User-Centered Design

Our User-Centred Design approach starts by understanding the root problem and what users truly need. Through user research, service design, and clear content, we create journeys that feel natural and accessible. It's not about trends, it's about meaningful outcomes and experiences that genuinely help.

Digital Delivery

As a delivery partner with your organisation, our service is primarily outcomes based, implementing products and services across portfolios & programmes in an iterative manner (Agile & Waterfall) with a focus on the benefits.

Cyber Security

Goaco partner with public & private sector organisations, protecting them from the threat of known and unknown security threats. We help you to develop security maturity, become certified, conduct security/penetration testing and protect from cyber-attacks 24x7.

Data

Goaco's Data Services span the full lifecycle from collection and management to advanced analytics and AI-driven insights. Ensuring accuracy, security, and scalability, we help businesses make smarter decisions, modernise operations, and drive growth.

Cloud

Our service offerings involve transforming your organisation to use the Cloud across Google Cloud, MS Azure and AWS, embedding automation (infrastructure-as-code) for cost-saving, and monitoring and management of your infrastructure for efficiency.

Artificial Intelligence

At Goaco we enable businesses to harness AI to transform how they operate, compete, and grow. Our AI Services span assessment, strategy, design, and implementation covering automation, predictive analytics, generative AI, and custom machine learning solutions.

Managed Services

Goaco's ITIL aligned support team works around the clock to keep your IT running at peak performance levels, using industry leading tools to constantly improve and ensure you are in safe hands.

Software Development

Goaco provide you with tech-agnostic custom, Web, App (mobile) and Low/No code (DynamicsCRM/PowerApps) development from design, build, launch & management. We embed as a development partner providing you the value of leveraging our experience.

Personnel clearance levels (UK)

At a minimum, our UK personnel hold a Government approved BPSS clearance.

Our Penetration Testers and Cyber Security consultants hold a minimum of Security Clearance vetted with the Ministry of Defence (UK Government). For SECRET, personnel with DV Clearance are available, which is the highest level across the UK Government.

International branches are covered by the same principles as BPSS, including identity verification, references and criminal record checks.

This is the value we bring to other regions and countries, with the assurance of personnel accessing sensitive data.

Our partnerships

Our values

Equality

We continually review our **promotion** of inclusivity, **diversity** and lifelong **learning**.

Integrity

Honesty and **integrity** have built a culture of trust and openness within the Goaco network.

Unity

We **recognise** the **power** of **diversity** and difference in a **team** to learn and grow as individuals and an organisation.

Respect

Respecting others **boundaries**, opinions and **skill sets** is **important** to us at the core of our **company culture**.

Excellence

We take pride in delivering **excellence** in everything we do and **expect** the same **passion** and drive from our colleagues.

Our culture

Behind every success story, innovation and milestone achieved, there are dedicated individuals who go above and beyond to make it happen.

One Team

Company Socials

Creating Opportunities

Valuing Diversity
