Service description

Data Warehousing Design and Integration offers comprehensive support, from service review to deployment and maintenance. Our skilled staff meticulously design and integrate tailored data warehouses, ensuring efficient data storage and retrieval. With expertise in architecture planning, ETL processes, and system integration, we empower businesses with actionable insights and streamlined operations.

- Tailored design and integration for efficient data management solutions.
- Scalable architecture to accommodate growing data volumes seamlessly.
- Seamless integration with existing systems for streamlined operations.
- Customised data models for optimal performance and accessibility.
- Comprehensive data mapping to ensure accurate and consistent information.
- Implementation of data governance practices to maintain data integrity.
- Utilisation of industry-leading tools and technologies for robust solutions.
- Expertise in ETL processes for efficient data extraction/transformation/loading.
- Continuous monitoring and optimisation for peak performance and reliability.
- Collaboration with stakeholders to align solutions with organisational goals.

- **Data Governance and Assurance, Data Quality Framework.**
- **Scalable architecture future-proofs data infrastructure for long-term growth.**
- **Streamlined operations reduce costs and improve resource allocation.**
- **Optimised data models enhance accessibility and decision-making capabilities.**
- **Consistent data ensures accuracy and reliability across the organisation.**
- **Data governance practices safeguard against errors and compliance issues.**
- **Utilisation of leading tools ensures quality and reliability in solutions.**
- **Efficient ETL processes expedite data processing and insights generation.**
- **Continuous monitoring ensures data availability and performance optimisation.**
- **Stakeholder alignment fosters organisational success and satisfaction.**

IASME certifications

Delivering **people-focused** outcomes through **innovation**

Goaco has delivered for the public and private sectors across the globe

Delivering excellence for over 15 years

Our Services

UCD User-Centered Design

Our User-Centred Design approach starts by understanding the root problem and what users truly need. Through user research, service design, and clear content, we create journeys that feel natural and accessible. It's not about trends, it's about meaningful outcomes and experiences that genuinely help.

Digital Delivery

As a delivery partner with your organisation, our service is primarily outcomes based, implementing products and services across portfolios & programmes in an iterative manner (Agile & Waterfall) with a focus on the benefits.

Cyber Security

Goaco partner with public & private sector organisations, protecting them from the threat of known and unknown security threats. We help you to develop security maturity, become certified, conduct security/penetration testing and protect from cyber-attacks 24x7.

Data

Goaco's Data Services span the full lifecycle from collection and management to advanced analytics and AI-driven insights. Ensuring accuracy, security, and scalability, we help businesses make smarter decisions, modernise operations, and drive growth.

Cloud

Our service offerings involve transforming your organisation to use the Cloud across Google Cloud, MS Azure and AWS, embedding automation (infrastructure-as-code) for cost-saving, and monitoring and management of your infrastructure for efficiency.

Artificial Intelligence

At Goaco we enable businesses to harness AI to transform how they operate, compete, and grow. Our AI Services span assessment, strategy, design, and implementation covering automation, predictive analytics, generative AI, and custom machine learning solutions.

Managed Services

Goaco's ITIL aligned support team works around the clock to keep your IT running at peak performance levels, using industry leading tools to constantly improve and ensure you are in safe hands.

Software Development

Goaco provide you with tech-agnostic custom, Web, App (mobile) and Low/No code (DynamicsCRM/PowerApps) development from design, build, launch & management. We embed as a development partner providing you the value of leveraging our experience.

Personnel clearance levels (UK)

At a minimum, our UK personnel hold a Government approved BPSS clearance.

Our Penetration Testers and Cyber Security consultants hold a minimum of Security Clearance vetted with the Ministry of Defence (UK Government). For SECRET, personnel with DV Clearance are available, which is the highest level across the UK Government.

International branches are covered by the same principles as BPSS, including identity verification, references and criminal record checks.

This is the value we bring to other regions and countries, with the assurance of personnel accessing sensitive data.

Our partnerships

Our values

Equality

We continually review our **promotion** of inclusivity, **diversity** and lifelong **learning**.

Integrity

Honesty and **integrity** have built a culture of trust and openness within the Goaco network.

Unity

We **recognise** the **power** of **diversity** and difference in a **team** to learn and grow as individuals and an organisation.

Respect

Respecting others **boundaries**, opinions and **skill sets** is **important** to us at the core of our **company culture**.

Excellence

We take pride in delivering **excellence** in everything we do and **expect** the same **passion** and drive from our colleagues.

Our culture

Behind every success story, innovation and milestone achieved, there are dedicated individuals who go above and beyond to make it happen.

One Team

Company Socials

Creating Opportunities

Valuing Diversity

Generating Solutions
