Services **description**

Mobile App Development covering both Android and iOS using Native and Hybrid languages such as: Kotlin, Swift, React Native, Objective-C, Flutter etc. Our mobile app development Secure SDLC process spans planning, design, build, release for AppStore/PlayStore, maintenance, updates and retirement. Covering the full GDS delivery lifecycle (Alpha, Beta and Live).

- Mobile app development and techniques e.g., TDD/BDD, CI/CD etc
- User experience (UX) and User Interface (UI) design and development
- Microservices, Webservices, RESTful API and platform integration
- Configuration automation: Terraform, Kubernetes, Ansible, CloudFormation
- CI/CD: Jenkins/Jenkins-X, Circle-CI, GitHub, BitBucket, GitLab, Azure DevOps, Maven etc
- PaaS platforms: Force.com, Heroku, ElasticBeanstalk, Google AppEngine, CloudFoundry, Azure etc
- Mobile App Development: Kotlin, Swift, React Native, Objective-C
- Back-End integration using API's (Firebase, .NET, Java, Python, PHP)
- Database (mongoDB, Hadoop, noSQL, Oracle, SQLServer, Postgres, MySQL etc)
- Focus on end-user experience and usability, User Research/Experience

- Adherence to principles and standards e.g., SOLID/DRY, GDS-Service Standards etc
- Independent Mobile App Development Quality Assurance and automated testing
- Scalable microservices architecture using containerisation (Docker and Kubernetes)
- Industry and Government best practice (DO178C, ISO9001, IEEE, ARINC, MISRA)
- Open-source to eliminate vendor and platform lock-in
- Accelerated mobile app prototype and MVP development
- Full cloud coverage: Google Cloud, AWS, Azure, Heroku etc
- Automated regression testing to speed up major release cycles
- Minor changes continuously tested and delivered using fully automated pipelines
- BPSS/SC Cleared Mobile App Development subject-matter-experts

Our Services

UCD User-Centered Design

Our User-Centred Design approach starts by understanding the root problem and what users truly need. Through user research, service design, and clear content, we create journeys that feel natural and accessible. It's not about trends, it's about meaningful outcomes and experiences that genuinely help.

Digital Delivery

As a delivery partner with your organisation, our service is primarily outcomes based, implementing products and services across portfolios & programmes in an iterative manner (Agile & Waterfall) with a focus on the benefits.

Cyber Security

Goaco partner with public & private sector organisations, protecting them from the threat of known and unknown security threats. We help you to develop security maturity, become certified, conduct security/penetration testing and protect from cyber-attacks 24x7.

Data

Goaco's Data Services span the full lifecycle from collection and management to advanced analytics and AI-driven insights. Ensuring accuracy, security, and scalability, we help businesses make smarter decisions, modernise operations, and drive growth.

Cloud

Our service offerings involve transforming your organisation to use the Cloud across Google Cloud, MS Azure and AWS, embedding automation (infrastructure-as-code) for cost-saving, and monitoring and management of your infrastructure for efficiency.

Artificial Intelligence

At Goaco we enable businesses to harness AI to transform how they operate, compete, and grow. Our AI Services span assessment, strategy, design, and implementation covering automation, predictive analytics, generative AI, and custom machine learning solutions.

Managed Services

Goaco's ITIL aligned support team works around the clock to keep your IT running at peak performance levels, using industry leading tools to constantly improve and ensure you are in safe hands.

Software Development

Goaco provide you with tech-agnostic custom, Web, App (mobile) and Low/No code (DynamicsCRM/PowerApps) development from design, build, launch & management. We embed as a development partner providing you the value of leveraging our experience.

Personnel clearance levels (UK)

At a minimum, our UK personnel hold a Government approved BPSS clearance.

Our Penetration Testers and Cyber Security consultants hold a minimum of Security Clearance vetted with the Ministry of Defence (UK Government). For SECRET, personnel with DV Clearance are available, which is the highest level across the UK Government.

International branches are covered by the same principles as BPSS, including identity verification, references and criminal record checks.

This is the value we bring to other regions and countries, with the assurance of personnel accessing sensitive data.

Our partnerships

Our values

Equality

We continually review our **promotion** of inclusivity, **diversity** and lifelong **learning**.

Integrity

Honesty and **integrity** have built a culture of trust and openness within the Goaco network.

Unity

We **recognise** the **power** of **diversity** and difference in a **team** to learn and grow as individuals and an organisation.

Respect

Respecting others **boundaries**, opinions and **skill sets** is **important** to us at the core of our **company culture**.

Excellence

We take pride in delivering **excellence** in everything we do and **expect** the same **passion** and drive from our colleagues.

Our culture

Behind every success story, innovation and milestone achieved, there are dedicated individuals who go above and beyond to make it happen.
