

Ongoing Support & Web Development

Agency Rate Card

Due to the nature of Support & Web Development it is not possible to provide detailed cost breakdown as no two projects are the same. Rocktime does however calculate costs based on its Agency Rate Card detailed as follows. Rocktime employ different rates across roles, senior involvement is more predominant in the early stages of a project, as we need their expertise to define the solution. For project build, we rely on middleweight staff to form the bulk of the team, with senior interaction as required.

Directors

Job Title	Day Rate	Hourly Rate
