1. SERVICE OVERVIEW

Klyra Sovereign is a full AI platform providing chat, document intelligence, meeting transcription, and workflow automations. It is deployed to the customer's own infrastructure.

Data never leaves customer-controlled environments, making Klyra Sovereign ideal for organisations with strict data sovereignty requirements, sensitive workloads, or regulatory constraints that prevent use of public cloud AI services.

OfficeLabs is an authorised reseller and support provider for Klyra products. Pricing includes G-Cloud contractual assurance and support coordination.

Features

AI Chat Assistant: Conversational AI with access to organisational knowledge and documents.

Document Intelligence: Retrieval Augmented Generation (RAG) for intelligent document search and analysis.

Meeting Transcription: Automatic transcription from any meeting platform with searchable archives.

Workflow Automations: AI-powered automation capabilities integrated with existing business processes.

Team Dashboard: Usage analytics and administration console for IT and compliance teams.

Sovereign Deployment: All data remains on customer-controlled infrastructure at all times.

Subscription Pricing

Annual subscription pricing by organisation size:

Tier	Users	Annual Price
Small Team	Up to 25 users	£9,500
Professional	Up to 50 users	£19,000
Enterprise	Up to 100 users	£37,500
Enterprise Plus	Up to 250 users	£94,000

Volume pricing for deployments exceeding 250 users is available on request.

Installation Services

Professional installation and configuration services:

Service	Price
Remote Installation	£3,000
<i>System setup, configuration, testing, and handover via secure remote access</i>	
On-site Installation (UK mainland)	£5,000
<i>In-person installation at customer premises, including travel</i>	

Infrastructure Requirements

The customer is responsible for providing and maintaining hardware (for on-premise deployment) or a cloud account (for private cloud deployment) that meets Klyra's published specifications.

Requirements include appropriate compute resources, storage, power, network connectivity, and physical security. Detailed specifications are provided during scoping.

Support

All subscriptions include standard support: email support during UK business hours (Monday to Friday, 9am to 5pm), software updates, and access to documentation and resources.

Enhanced support options are available under separate Cloud Support service listings.

Educational Discount

A discount is available for educational institutions. Please contact OfficeLabs to discuss eligibility and obtain a quotation.

Notes

All prices are exclusive of VAT at the prevailing rate (currently 20%).

Subscriptions are billed annually in advance.

Prices are valid for the G-Cloud 15 framework period and are subject to annual review.

All customer data remains on customer-controlled infrastructure throughout the contract and after termination.

Please contact OfficeLabs to discuss requirements and obtain a formal quotation.
