1. SERVICE OVERVIEW

Morae Migrate is integrated into OfficeLabs' Information Management as a Service (IMaaS) offering, enhancing the suite's capabilities to manage and govern information compliantly and securely.

Morae Migrate addresses the complexities involved in transitioning from legacy systems to modern Microsoft 365 environments. It enables organisations to streamline the migration of critical business data from systems like Livelink Content Server and Documentum to SharePoint Online.

As part of the IMaaS suite, Morae Migrate ensures that data migration aligns with organisational governance policies and security standards, providing a seamless, efficient, and secure data transfer process.

OfficeLabs is an authorised reseller and implementation partner for Gimmel (a Morae company). Pricing includes G-Cloud contractual assurance, onboarding coordination, and alignment with Microsoft 365 estates.
