

Based on the potential services detailed in Lot 3, Inzpire can confirm that it does not have any additional terms to supplement the G-Cloud terms and conditions which would apply across the whole range of the services that could be procured pursuant to Lot 3. However, it will highlight at any call off contract stage any additional terms that may be required which are relevant to the call off contract, these may include bespoke service levels and/or data processing arrangements along with anything else considered relevant to the specific service provision.
