

Cyber Exercise Service

Service Overview

Inzpire is a company grounded in the delivery of world-class exercises for the UK military; we have now combined this 20 years' of excellence in the delivery of complex exercises with our deep understanding of offensive cyber capabilities and defensive cyber operations. This allows Inzpire to deliver bespoke and tailored exercises which allow organisations to assure and improve their cyber security and resilience capabilities from small team-based training up to organisational level or cross organisation exercises with hundreds of participants and multiple sites. Using a team of highly-experienced exercise design and delivery personnel alongside our cyber subject matter experts Inzpire can deliver realistic, challenging and engaging exercises to all levels within an organisation. We have already provided cyber exercises for multiple elements of UK Critical National Infrastructure as well as our traditional UK and foreign military customers.

Service Description

All of our teams are made up of the highest quality subject matter experts, drawing together experience from team members from ex-military backgrounds, law enforcement and from cutting edge technology companies. Our trained and experienced team hold the highest government security clearances.

Depending on the type of exercise required and the maturity of the exercise requirements Inzpire can provide a full end-to-end service or selected modules from our exercising framework.

- Inzpire's Training Needs Analysis team are experts in eliciting your exercises needs and developing an agreed set of exercise requirements which will appropriately challenge the exercise participants.
- Our exercise development experts will then work alongside cyber subject matter experts to develop exercises tailored to your needs with realistic scenarios which match your organisation's current capabilities – ensuring that all participants are stretched, but not overwhelmed, by the exercise maximising the benefits of the exercise.
- Years of experience have proven that the key to any good exercise is an honest and thorough debrief. Having run the exercise our team will then facilitate the debrief, ensuring that the root causes behind any issues are uncovered allowing for appropriate mitigation measures to be delivered.
- Validation of the exercise outcomes and delivery can be provided to meet Quality Assurance and governance requirements.
- Out-briefs highlighting the significant findings of the exercise for executives and decision makers are available as written reports or verbal briefings.
- In-depth exercise report includes lessons identified and recommendations for improvement. Recommendations are drawn from Human Factors, policy, process and technology areas ensuring you have a holistic view of the performance of your capabilities.
- Our scenarios present current real world challenges faced by your sector ensuring the relevance of the exercise and maximising participant engagement and training benefit.
