

Sandhata Technologies – Pricing Overview (G-Cloud 15)

Pricing Model

Sandhata provides professional services priced on a time and materials or fixed-price basis, depending on the scope and nature of the engagement. Pricing is agreed with buyers in advance through a formal Statement of Work or Order Form.

Charging Structure

Pricing is typically based on:

- Role and skill level required
- Delivery location (UK or offshore)
- Duration and intensity of engagement
- Complexity and regulatory requirements

Services may be delivered using named roles or blended delivery teams, as appropriate to the engagement.

Scope Dependencies

Pricing may vary based on:

- Functional and non-functional requirements
- Platform or tooling dependencies
- Integration complexity
- Security, assurance, and governance obligations

Where services are delivered alongside third-party platforms, platform licensing costs are excluded and remain the responsibility of the buyer.

Exclusions

Pricing excludes:

- Third-party software or platform licences
- Buyer infrastructure costs
- Material changes to scope not agreed in writing

Obtaining Pricing

Buyers can obtain pricing by contacting Sandhata to request a proposal or Statement of Work aligned to their specific requirements.
