2 CLOUD HOSTING

2.1 INOAPPS ORACLE CLOUD HOSTING SERVICE

2.1.1 Service Definition

For full details of the service please refer to the Service Definition.

2.1.2 Fee Structure Basis

Please understand that the general basis of our fee structure is as follows:

A Virtual server running Linux O/S as below for £275 per month:

Memory GB	vCPU	Disc GB	Cost
8	2	40	£275

One off cost of £2,000 for initial build

Please note that this is dependant on client requirements.

2.1.3 Contract Period

The minimum contract period is 12 months, rolling renewal, arrangement. However, we will honour and work to support other arrangements in the event that existing client contracts and/or governmental policy changes dictate variations to our stated terms.

Please be aware that in line with the G-Cloud 15 Supplier declaration the payment terms for the above services are designed in a manner to ensure you as the buyer only pay for what you use. This is in line with the Oracle Licensing terms of one calendar year. We are happy to discuss other payment models as required.

2.1.4 Contract Term & Changes

After agreed initial term, termination is possible with 3 months' prior notice with payment for any unpaid months.

Please see [Ordering Information](#) for information on how to place an order.

3 CLOUD SOFTWARE

3.1 INOAPPS BESPOKE CLOUD AND MOBILE APPLICATION DEVELOPMENT

3.1.1 Service Definition

For full details of the service please refer to the Service Definition.

3.1.2 Fee Structure Basis

In line with our SFIA rate card.

3.1.3 Contract Period

There is no minimum contract period.

Please be aware that in line with the G-Cloud 15 Supplier declaration the payment terms for the above services are designed in a manner to ensure you as the buyer only pay for what you use. This is in line with the Oracle Licensing terms of one calendar year. We are happy to discuss other payment models as required.

3.1.4 Contract Term & Changes

After agreed initial term, termination is possible with 3 months' prior notice with payment for any unpaid months.

Please see [Ordering Information](#) for information on how to place an order.

3.2 INOAPPS CONSTRUCTION INDUSTRY SCHEME (CIS) CLOUD SOLUTION

3.2.1 Service Definition

For full details of the service please refer to the Service Definition.

3.2.2 Fee Structure Basis

The subscription pricing starts at £750 per month depending on your requirements.

Infrastructure, support and implementation costs are not included in subscription and will vary based on factors such as number of environments. We are always happy to vary the level of additional professional services support needed for implementation/configuration support given a client's local team talents.

3.2.3 Contract Period

Minimum contract period of 12 months.

3.2.4 Contract Term & Changes

After agreed initial term, termination is possible with 3 months' prior notice with payment for any unpaid months.

Please see [Ordering Information](#) for information on how to place an order.

3.3 INOAPPS DIGITAL TAX CLOUD SOLUTION

3.3.1 Service Definition

For full details of the service please refer to the Service Definition.

3.3.2 Fee Structure Basis

The pricing for Digital tax starts at £6,000 per annum.

We are always happy to vary the level of additional professional services support needed for implementation/configuration support given a client's local team talents.

3.3.3 Contract Period

The minimum contract period is 12 months, rolling renewal, arrangement. However, we will honour and work to support other arrangements in the event that existing client contracts and/or governmental policy changes dictate variations to our stated terms.

Please be aware that in line with the G-Cloud 15 Supplier declaration the payment terms for the above services are designed in a manner to ensure you as the buyer only pay for what you use. This is in line with the Oracle Licensing terms of one calendar year. We are happy to discuss other payment models as required.

3.3.4 Contract Term & Changes

After agreed initial term, termination is possible with 3 months' prior notice with payment for any unpaid months.

Please see [Ordering Information](#) for information on how to place an order.

3.4 INOAPPS HESA ORACLE HCM REPORTING SOLUTION FOR HIGHER EDUCATION

3.4.1 Service Definition

For full details of the service please refer to the Service Definition.

3.4.2 Fee Structure Basis

The subscription pricing starts at £1,000 per month depending on your requirements.

Infrastructure, support and implementation costs are not included in subscription and will vary based on factors such as number of environments. We are always happy to vary the level of additional professional services support needed for implementation/configuration support given a client's local team talents.

3.4.3 Contract Period

The minimum contract period is 12 months, rolling renewal, arrangement. However, we will honour and work to support other arrangements in the event that existing client contracts and/or governmental policy changes dictate variations to our stated terms.

Please be aware that in line with the G-Cloud 15 Supplier declaration the payment terms for the above services are designed in a manner to ensure you as the buyer only pay for what you use. This is in line with the Oracle Licensing terms of one calendar year. We are happy to discuss other payment models as required.

3.4.4 Contract Term & Changes

After agreed initial term, termination is possible with 3 months' prior notice with payment for any unpaid months.

Please see [Ordering Information](#) for information on how to place an order.

3.5 INOAPPS LEGACY APPLICATION DATA ARCHIVING SOLUTION

3.5.1 Service Definition

For full details of the service please refer to the Service Definition.

3.5.2 Fee Structure Basis

The subscription pricing starts at £13,000 per annum depending on your requirements.

Infrastructure, support and implementation costs are not included in subscription and will vary based on factors such as size of database required. We are always happy to vary the level of additional professional services support needed for implementation/configuration support given a client's local team talents.

3.5.3 Contract Period

The minimum contract period is 12 months, rolling renewal, arrangement. However, we will honour and work to support other arrangements in the event that existing client contracts and/or governmental policy changes dictate variations to our stated terms.

Please be aware that in line with the G-Cloud 15 Supplier declaration the payment terms for the above services are designed in a manner to ensure you as the buyer only pay for what you use. This is in line with the Oracle Licensing terms of one calendar year. We are happy to discuss other payment models as required.

3.5.4 Contract Term & Changes

After agreed initial term, termination is possible with 3 months' prior notice with payment for any unpaid months.

Please see [Ordering Information](#) for information on how to place an order.

3.6 INOAPPS ORACLE CLOUD SAAS EXTENSIONS

3.6.1 Service Definition

For full details of the service please refer to the Service Definition.

3.6.2 Fee Structure Basis

Depending on options taken, the service is either consultancy from the SFIA Rate card or alternatively a SaaS model depending on customer requirements.

3.6.3 Contract Period

Minimum contract period of 12 months.

3.6.4 Contract Term & Changes

After agreed initial term, termination is possible with 3 months' prior notice with payment for any unpaid months.

Please see [Ordering Information](#) for information on how to place an order.

4.27 INOAPPS EBS SECURITY ASSURANCE SERVICES

4.27.1 Service Definition

For full details of the service please refer to the Service Definition.

4.27.2 Fee Structure Basis

Monthly fee breakdown	
Core Oracle EBS Assurance Services	£1,700
Total Per Month	£1,700

Costs based on the following parameters (costs can be flexed for additional requirements):

- 1 x Core Oracle EBS platform / service
- Single hosting location
- Standard Oracle EBS configuration
- Production and 1 x non-Production instance only.

4.27.3 Contract Period

The minimum contract period is 12 months, rolling renewal, arrangement. However, we will honour and work to support other arrangements in the event that existing client contracts and/or governmental policy changes dictate variations to our stated terms.

Please be aware that in line with the G-Cloud 15 Supplier declaration the payment terms for the above services are designed in a manner to ensure you as the buyer only pay for what you use. This is in line with the Oracle Licensing terms of one calendar year. We are happy to discuss other payment models as required.

4.27.4 Contract Term & Changes

After agreed initial term, termination is possible with 3 months' prior notice with payment for any unpaid months.

Please see [Ordering Information](#) for information on how to place an order.
