See why other local authorities have joined Azimap by experiencing it for yourself with a **free 30-day trial**.

Bringing desktop GIS capabilities to the web.

Deliver fresh insight and understanding from your data, with the most powerful analysis tools in a web GIS.

Reasons to choose Azimap...

GIS access for all

Accessible anywhere, anytime. Azimap's user-friendly, simplified tools enable all staff within local authorities to create maps, access data and share information.

Powerful data analysis

Reducing once complex processes, Azimap's spatial analysis wizard allows any user to build advanced spatial queries with no specialist or technical knowledge required.

Improve collaboration

Quickly & easily share data with staff internally, or citizens externally to transform the way your colleagues collaborate on any project.

Easy integration

Supporting all major spatial data types. Modernise your data management processes with seamless integration into your existing IT infrastructures.

All-inclusive pricing

What you see is what you get. With no hidden charges or extras, unlimited usage for all features and tools is included as standard. Helping you to maintain control over budgets.
