

Redinet offers a flexible range of managed IT and Cloud services designed to meet our clients' specific requirements, enabling organisations to focus on their primary business.

Information technology is constantly evolving and we have the infrastructure, tools and services to ensure our clients are able to achieve their goals in the most efficient and effective manner. Redinet takes care of the IT infrastructure so you can concentrate on taking your business to the next level.

Our aim is to provide you with an infrastructure that reduces risk, and allows you to become more profitable. We want to get to know your business and believe the closer we are allowed to work with our customers, the more value we can provide.

Ultimately, we endeavour to form long-term partnerships.

Endpoint Security - EPDR (Endpoint Protection, Detection and Response)

EPDR provides features to proactively search for compromised endpoints or harden them against the most common malwareless attack techniques. Combined with the cross-product correlation our Unified Security Platform architecture provides, Advanced EPDR heightens security efficacy against sophisticated attacks.

Features

- Fully supported by Redinet Ltd technical support
