	Description	
Cloud Integrated		
Critical Protection - Cloud Integrated	Critical Protection Cloud Integrated, protecting email from phishing and advanced BEC attacks. Includes Perimeter protection to safeguard against targeted email threats, Advanced BEC, Internal Email Protect, and Browser Isolation.	2.23
Advanced Protection - Cloud Integrated	Advanced Protection Cloud Integrated, protecting email from phishing and advanced BEC attacks. Includes Perimeter protection to safeguard against targeted email threats, Advanced BEC, Internal Email Protect, and Browser Isolation, and data back up with Sync and Recover via Cloud Integrated.	3.56
Premium Protection - Cloud Integrated	Premium Protection Cloud Integrated, protecting email from phishing and advanced BEC attacks. Includes Perimeter protection to safeguard against targeted email threats, Advanced BEC, Internal Email Protect, and Browser Isolation, data back up with Sync and Recover, plus collaboration security.	4.41
Awareness Training Cloud Integrated	Security awareness and training platform accessed via the Email Security, Cloud Integrated product suite. Mimecast Awareness Training includes a content library of over 100 video-based learning modules, simulated phishing assessments, and comprehensive risk scoring and reporting.	0.73
Engage Cloud Integrated	Security Awareness and human risk management platform accessed via the Email Security, Cloud Integrated product suite. Mimecast Engage includes: access to a content library of over 100 video-based learning modules, simulated phishing assessments, comprehensive human risk scoring and email based behavioral nudges.	1.39
Cloud Gateway		
Critical Protection - Cloud Gateway	Critical Protection Cloud Gateway security. Includes Perimeter protection to safeguard against targeted email threats, Internal Email Protect and Advanced BEC.	2.23
Advanced Protection - Cloud Gateway	Advanced Protection Cloud Gateway security. Includes Perimeter protection to safeguard against targeted email threats, Internal Email Protect and Advanced BEC plus back up and restore capabilities including protection for uncategorized websites and links in emails via Browser Isolation. Also includes content security capabilities such as large file send, secure messaging, and privacy pack.	3.56
Premium Protection - Cloud Gateway	Premium Protection Cloud Gateway security. Includes Perimeter protection to safeguard against targeted email threats, Internal Email Protect and Advanced BEC plus back up and restore capabilities including protection for uncategorized websites and links in emails via Browser Isolation. Also includes internal collaboration security for sharepoint/onedrive/teams.	4.41
Add Ons		
Mimecast AI	Email archive with eDiscovery and regulatory compliance workflows including tools for finding and managing information easily, ensuring legal compliance, and safeguarding your data with bottomless, immutable storage for up to 99 years.	2.65
Mimecast Email Incident Response	Mimecast Email Incident Response lowers dwell time of cybersecurity threats, and reduces the burden of threat response and remediation on customer's security operations center (SOC). User-reported threats are routed to Mimecast's SOC where they are automatically analyzed, triaged and prioritized for expert analyst classification and remediation.	0.79
Mimecast AT1 Mime/OS - Cloud Gateway	Security Awareness Training, including an on-demand content library, phishing simulation, assessments, reporting, and risk scoring.	0.73
Engage Cloud Gateway	Security Awareness and human risk management platform accessed via the Email Security, Cloud Gateway product suite. Mimecast Engage includes: access to a content library of over 100 video-based learning modules, simulated phishing assessments, comprehensive human risk scoring and email based behavioral nudges.	1.39
Archive Power Tools	Replicate individual and shared mailbox folders and calendars into the Mimecast Archive.	0.40
Supervision	Supervisory rule and queue management to address supervisory compliance requirements covering insider trading, and other illegal activity.	1.16
Engage Core	Security awareness and human risk management platform. Includes access to 200+ video-based learning modules, simulated phishing assessments, unlimited inbound data integrations, and comprehensive human risk scoring via the Human Risk Command Center.	0.73
Engage Pro	Enhanced security awareness and human risk management platform. Includes 200+ educational videos, simulated phishing assessments, behavioral nudges, human risk scorecards, unlimited inbound data integrations, and advanced human risk scoring capabilities through the Human Risk Command Center.	1.39
Incyrd		
Incyrd Professional	Incyrd Risk Detection for Endpoints and 1 Cloud service. Includes Dashboards, Lenses, Forensic Search, Cases, Exfiltrated File Collection, 30 day security data retention and Base API access.	3.35
Incyrd Enterprise	Incyrd Risk Detection for Endpoints and 1 Cloud service. Includes Dashboards, Lenses, Forensic Search, Cases, Exfiltrated File Collection, 1 Automated integration, 60 day security data retention and Full API access.	4.30
Incyrd Instructor	Best-in-class Insider Risk Reduction Training; Lessons tailored to help reduce Insider Risks proactively and responsibly.	0.53
Incyrd Email Integration - Office365	The Office365 Email connection is an integration that will ingest all sent mail with attachments from MSO365 into Incyrd. This allows for investigation and correlation of file movement across endpoints and cloud to understand data exfiltration risk.	0.60
Incyrd Email Integration - Gmail	The Gmail connection is an integration that will ingest all sent mail with attachments from Gmail into Incyrd. This allows for investigation and correlation of file movement and possession across endpoints and cloud to understand data exfiltration risk.	0.60
Incyrd Salesforce Add-on	The Salesforce Add-On allows Incyrd to monitor report downloads from a customer's Salesforce instance.	0.60
Incyrd Box Add-On	The Box Add-On allows Incyrd to monitor file activity within a customer's corporate Box account, providing visibility of what files employees have access to and with whom they are sharing files with.	0.60
Incyrd Google Drive Add-On	The Google Drive Add-On allows Incyrd to monitor file activity within a customer's corporate Google Drive account, providing visibility of what files employees have access to and with whom they are sharing files with.	0.60
Incyrd OneDrive Add-On	The OneDrive Add-On allows Incyrd to monitor file activity within a customer's corporate OneDrive account, providing visibility of what files employees have access to and with whom they are sharing files with.	0.60
Incyrd All File Metadata Collection	Captures all file activity on a device (create/modify/delete events) and makes this comprehensive history available during investigation. Available as an upgrade to Incyrd Professional, Enterprise, Horizon or Incyrd Glow F2 only.	0.60
Incyrd Security Data Retention - 90 Days	Security data events used in forensic search, dashboards, alerts, etc are retained for 90 days.	0.60
Incyrd Security Data Retention - 180 Days	Security data events used in forensic search, dashboards, alerts, etc are accessible for 180 days.	0.96
Incyrd Full API Access	Allows for full API access.	0.60
Incyrd Flow - Microsoft Entra - Containment (permissions)	This Incyrd Flow will revoke a user's access permissions within Microsoft Entra.	325.53
Incyrd Flow - SentinelOne - Containment (endpoints)	This Incyrd Flow will quarantine all of a user's endpoints and isolate them from the network via SentinelOne.	325.53
Incyrd Flow - Microsoft Teams - Alert triage	This Incyrd Flow publishes alerts to for triage in Microsoft Teams channel.	325.53
Incyrd Flow - Jira - Watchlist management	This Incyrd Flow adds an employee to the Jira Employee watchlist based on a ticket being created in Jira with their departure date.	325.53
Incyrd Flow - CrowdStrike - Containment (endpoint)	This Incyrd Flow will quarantine all of a user's endpoints and isolate them from the network via CrowdStrike.	325.53
Incyrd Flow - Workday - Watchlist management	This Incyrd Flow adds an employee to the Departing Employee watchlist based on their departure date in Workday.	325.53
Incyrd Flow - Minicast - Watchlist management	This Incyrd Flow will sync memberships between a specific Incyrd watchlist and Mimecast profile group, to which Mimecast controls can be applied.	325.53
Incyrd Flow - UAG - Watchlist management	This Incyrd Flow adds an employee to the OneDrive Employee watchlist based on their departure date in UAG.	325.53
Incyrd Flow - BambooHR - Watchlist management	This Incyrd Flow adds an employee to the Departing Employee watchlist based on their departure date in BambooHR.	325.53
Incyrd Flow - Slack - Alert triage	This Incyrd Flow publishes alerts to for triage in a private Slack channel or in a direct message.	325.53
Incyrd Flow - Data - Containment (permissions)	This Incyrd Flow will revoke a user's access permissions within One.	325.53
Incyrd Flow - CrowdStrike - Containment (USB)	This Incyrd Flow will disable all USB ports on the employees endpoint using CrowdStrike Falcon.	325.53
Incyrd Flow - CrowdStrike - Watchlist Management	This Incyrd Flow will add people to a dedicated watchlist with commensurate controls whenever they generate a CrowdStrike Falcon incident.	325.53
Incyrd Content Inspection	Add-on for cloud side inspection of exfiltrated files for PII. Available to Professional and Enterprise customers. Applies to the entire tenant, so must be purchased at the same vast quantity as the customer's Professional or Enterprise product plan.	0.53
Incyrd Custom Branding Add-on for Instructor	Provides custom branding on Instructor Lessons (logo and contact information will be customized to customer-specific details; requires purchase of Instructor).	0.09
Brand Exploit Protect		
Brand Exploit Protect - Primary Domain - Saas - Tier 1	BEIP monitoring for the primary brand/domain name. For domains ranked 1-9,999 in Alexa.	1,815
Brand Exploit Protect - Primary Domain - Saas - Tier 2	BEIP monitoring for the primary brand/domain name. For domains ranked 10,000-99,999 in Alexa.	1,320
Brand Exploit Protect - Primary Domain - Saas - Tier 3	BEIP monitoring for the primary brand/domain name. For domains ranked 100,000-999,999 in Alexa.	660
Brand Exploit Protect - Primary Domain - Saas - Tier 4	BEIP monitoring for the primary brand/domain name. For domains ranked 1,000,000+ in Alexa.	330
Brand Exploit Protect - Secondary Domain - Saas - Tier 1	Additional BEIP monitoring for secondary brand(s)/domain(s). For domains ranked 1-9,999 in Alexa.	1,320
Brand Exploit Protect - Secondary Domain - Saas - Tier 2	Additional BEIP monitoring for secondary brand(s)/domain(s). For domains ranked 10,000-99,999 in Alexa.	660
Brand Exploit Protect - Secondary Domain - Saas - Tier 3	Additional BEIP monitoring for secondary brand(s)/domain(s). For domains ranked 100,000-999,999 in Alexa.	330
Brand Exploit Protect - Secondary Domain - Saas - Tier 4	Additional BEIP monitoring for secondary brand(s)/domain(s). For domains ranked 1,000,000+ in Alexa.	297
Brand Exploit Protect - 5 Take Downs	Brand Exploit Protect - 5 Take Downs valid for the length of contract term and expiring at contract end, payable in advance upon confirmation of Order. Upon each subsequent renewal, a new bundle pack of 5 Take Downs will be automatically included with the same payment and expiration terms.	1,188
Brand Exploit Protect - 25 Take Downs	Brand Exploit Protect - 25 Take Downs valid for the length of contract term and expiring at contract end, payable in advance upon confirmation of Order. Upon each subsequent renewal, a new bundle pack of 25 Take Downs will be automatically included with the same payment and expiration terms.	4,753
Brand Exploit Protect - 100 Take Downs	Brand Exploit Protect - 100 Take Downs valid for the length of contract term and expiring at contract end, payable in advance upon confirmation of Order. Upon each subsequent renewal, a new bundle pack of 100 Take Downs will be automatically included with the same payment and expiration terms.	15,843
Brand Exploit Protect - 250 Take Downs	Brand Exploit Protect - 250 Take Downs valid for the length of contract term and expiring at contract end, payable in advance upon confirmation of Order. Upon each subsequent renewal, a new bundle pack of 250 Take Downs will be automatically included with the same payment and expiration terms.	31,687
Brand Exploit Protect - 1000 Take Downs	Brand Exploit Protect - 1000 Take Downs valid for the length of contract term and expiring at contract end, payable in advance upon confirmation of Order. Upon each subsequent renewal, a new bundle pack of 1000 Take Downs will be automatically included with the same payment and expiration terms.	99,022
OMARC Analyzer		
OMARC Analyzer - Tier 1 - 5 Domains	OMA Saas unmanaged domain bundle for customers with more than 10,000 seats. 5 Domains.	1,300
OMARC Analyzer - Tier 2 - 5 Domains	OMA Saas unmanaged domain bundle for customers with 1,000 to 9,999 seats. 5 Domains.	866
OMARC Analyzer - Tier 3 - 5 Domains	OMA Saas unmanaged domain bundle for customers with 250 to 999 seats. 5 Domains.	462
OMARC Analyzer - Tier 4 - 5 Domains	OMA Saas unmanaged domain bundle for customers with fewer than 250 seats. 5 Domains.	289
OMARC Analyzer - Tier 1 - 10 Domains	OMA Saas unmanaged domain bundle for customers with more than 10,000 seats. 10 Domains.	1,494
OMARC Analyzer - Tier 2 - 10 Domains	OMA Saas unmanaged domain bundle for customers with 1,000 to 9,999 seats. 10 Domains.	1,378
OMARC Analyzer - Tier 3 - 10 Domains	OMA Saas unmanaged domain bundle for customers with 250 to 999 seats. 10 Domains.	866
OMARC Analyzer - Tier 4 - 10 Domains	OMA Saas unmanaged domain bundle for customers with fewer than 250 seats. 10 Domains.	635
OMARC Analyzer - Tier 1 - 25 Domains	OMA Saas unmanaged domain bundle for customers with more than 10,000 seats. 25 Domains.	2,096
OMARC Analyzer - Tier 2 - 25 Domains	OMA Saas unmanaged domain bundle for customers with 1,000 to 9,999 seats. 25 Domains.	1,469
OMARC Analyzer - Tier 3 - 25 Domains	OMA Saas unmanaged domain bundle for customers with 250 to 999 seats. 25 Domains.	1,135
OMARC Analyzer - Tier 4 - 25 Domains	OMA Saas unmanaged domain bundle for customers with fewer than 250 seats. 25 Domains.	743
OMARC Analyzer - Tier 1 - 50 Domains	OMA Saas unmanaged domain bundle for customers with more than 10,000 seats. 50 Domains.	3,119
OMARC Analyzer - Tier 2 - 50 Domains	OMA Saas unmanaged domain bundle for customers with 1,000 to 9,999 seats. 50 Domains.	2,403
OMARC Analyzer - Tier 3 - 50 Domains	OMA Saas unmanaged domain bundle for customers with 250 to 999 seats. 50 Domains.	1,716
OMARC Analyzer - Tier 4 - 50 Domains	OMA Saas unmanaged domain bundle for customers with fewer than 250 seats. 50 Domains.	1,106
OMARC Analyzer - Tier 1 - 100 Domains	OMA Saas unmanaged domain bundle for customers with more than 10,000 seats. 100 Domains.	4,217
OMARC Analyzer - Tier 2 - 100 Domains	OMA Saas unmanaged domain bundle for customers with 1,000 to 9,999 seats. 100 Domains.	3,243
OMARC Analyzer - Tier 3 - 100 Domains	OMA Saas unmanaged domain bundle for customers with 250 to 999 seats. 100 Domains.	2,111
OMARC Analyzer - Tier 4 - 100 Domains	OMA Saas unmanaged domain bundle for customers with fewer than 250 seats. 100 Domains.	1,494
OMARC Analyzer - Tier 1 - 250 Domains	OMA Saas unmanaged domain bundle for customers with more than 10,000 seats. 250 Domains.	5,702
OMARC Analyzer - Tier 2 - 250 Domains	OMA Saas unmanaged domain bundle for customers with 1,000 to 9,999 seats. 250 Domains.	4,390
OMARC Analyzer - Tier 3 - 250 Domains	OMA Saas unmanaged domain bundle for customers with 250 to 999 seats. 250 Domains.	3,135
OMARC Analyzer - Tier 4 - 250 Domains	OMA Saas unmanaged domain bundle for customers with fewer than 250 seats. 250 Domains.	2,022
OMARC Analyzer - Monitoring Service - Tier 1 - 5 Domains	OMA Monitoring Service for customers with more than 10,000 seats.	1,300
OMARC Analyzer - Monitoring Service - Tier 2 - 5 Domains	OMA Monitoring Service for customers with 1,000 to 9,999 seats.	866
OMARC Analyzer - Monitoring Service - Tier 3 - 5 Domains	OMA Monitoring Service for customers with 250 to 999 seats.	462
OMARC Analyzer - Monitoring Service - Tier 4 - 5 Domains	OMA Monitoring Service for customers with fewer than 250 seats.	289
OMARC Analyzer - Monitoring Service - Tier 1 - 10 Domains	OMA Monitoring Service for customers with more than 10,000 seats.	1,792
OMARC Analyzer - Monitoring Service - Tier 2 - 10 Domains	OMA Monitoring Service for customers with 1,000 to 9,999 seats.	1,378
OMARC Analyzer - Monitoring Service - Tier 3 - 10 Domains	OMA Monitoring Service for customers with 250 to 999 seats.	866
OMARC Analyzer - Monitoring Service - Tier 4 - 10 Domains	OMA Monitoring Service for customers with fewer than 250 seats.	635
OMARC Analyzer - Monitoring Service - Tier 1 - 25 Domains	OMA Monitoring Service for customers with more than 10,000 seats.	2,096
OMARC Analyzer - Monitoring Service - Tier 2 - 25 Domains	OMA Monitoring Service for customers with 1,000 to 9,999 seats.	1,469
OMARC Analyzer - Monitoring Service - Tier 3 - 25 Domains	OMA Monitoring Service for customers with 250 to 999 seats.	1,135
OMARC Analyzer - Monitoring Service - Tier 4 - 25 Domains	OMA Monitoring Service for customers with fewer than 250 seats.	743
OMARC Analyzer - Monitoring Service - Tier 1 - 50 Domains	OMA Monitoring Service for customers with more than 10,000 seats.	3,119
OMARC Analyzer - Monitoring Service - Tier 2 - 50 Domains	OMA Monitoring Service for customers with 1,000 to 9,999 seats.	2,403
OMARC Analyzer - Monitoring Service - Tier 3 - 50 Domains	OMA Monitoring Service for customers with 250 to 999 seats.	1,716

DMAIC Analyzer - Monitoring Service - Tier 4 - 50 Domains	DMA Monitoring Service for customers with fewer than 250 seats.	1,106
DMAIC Analyzer - Monitoring Service - Tier 1 - 100 Domains	DMA Monitoring Service for customers with more than 10,000 seats.	4,217
DMAIC Analyzer - Monitoring Service - Tier 2 - 100 Domains	DMA Monitoring Service for customers with 1,000 to 9,999 seats.	3,243
DMAIC Analyzer - Monitoring Service - Tier 3 - 100 Domains	DMA Monitoring Service for customers with 250 to 999 seats.	2,311
DMAIC Analyzer - Monitoring Service - Tier 4 - 100 Domains	DMA Monitoring Service for customers with fewer than 250 seats.	1,484
DMAIC Analyzer - Monitoring Service - Tier 1 - 250 Domains	DMA Monitoring Service for customers with more than 10,000 seats.	5,702
DMAIC Analyzer - Monitoring Service - Tier 2 - 250 Domains	DMA Monitoring Service for customers with 1,000 to 9,999 seats.	4,390
DMAIC Analyzer - Monitoring Service - Tier 3 - 250 Domains	DMA Monitoring Service for customers with 250 to 999 seats.	3,136
DMAIC Analyzer - Monitoring Service - Tier 4 - 250 Domains	DMA Monitoring Service for customers with fewer than 250 seats.	2,022
DMAIC Analyzer - SPF Delegation - 1 domain	SPF delegation to manage SPF records that have exceeded the DNS Lookup limit - 1 Domain	50
DMAIC Analyzer - SPF Delegation - 3 domains	SPF delegation to manage SPF records that have exceeded the DNS Lookup limit - 3 Domains	83
DMAIC Analyzer - SPF Delegation - 5 domains	SPF delegation to manage SPF records that have exceeded the DNS Lookup limit - 5 Domains	116
DMAIC Analyzer - SPF Delegation - 10 domains	SPF delegation to manage SPF records that have exceeded the DNS Lookup limit - 10 Domains	165
DMAIC Analyzer - SPF Delegation - 50 domains	SPF delegation to manage SPF records that have exceeded the DNS Lookup limit - 50 Domains	330
DMAIC Analyzer - Fundamentals	DMA SaaS Fundamentals: platform access for 3 users and 5 email domains. Data retained for 90 days.	396

DMAIC Analyzer Cloud Integrated	Description	
DMAIC Analyzer Cloud Integrated - Tier 1 - 5 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 5 Domains. For customers with more than 10,000 seats.	1,300
DMAIC Analyzer Cloud Integrated - Tier 2 - 5 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 5 Domains. For customers with 1,000 to 9,999 seats.	866
DMAIC Analyzer Cloud Integrated - Tier 3 - 5 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 5 Domains. Customers with 250 to 999 seats.	462
DMAIC Analyzer Cloud Integrated - Tier 4 - 5 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 5 Domains. Customers with fewer than 250 seats.	289
DMAIC Analyzer Cloud Integrated - Tier 1 - 10 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 10 Domains. For customers with more than 10,000 seats.	1,791
DMAIC Analyzer Cloud Integrated - Tier 2 - 10 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 10 Domains. Customers with 250 to 999 seats.	1,378
DMAIC Analyzer Cloud Integrated - Tier 3 - 10 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 10 Domains. Customers with 250 to 999 seats.	990
DMAIC Analyzer Cloud Integrated - Tier 4 - 10 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 10 Domains. Customers with fewer than 250 seats.	635
DMAIC Analyzer Cloud Integrated - Tier 1 - 25 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 25 Domains. For customers with more than 10,000 seats.	2,096
DMAIC Analyzer Cloud Integrated - Tier 2 - 25 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 25 Domains. For customers with 1,000 to 9,999 seats.	1,609
DMAIC Analyzer Cloud Integrated - Tier 3 - 25 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 25 Domains. Customers with 250 to 999 seats.	1,155
DMAIC Analyzer Cloud Integrated - Tier 4 - 25 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 25 Domains. Customers with fewer than 250 seats.	743
DMAIC Analyzer Cloud Integrated - Tier 1 - 50 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 50 Domains. For customers with more than 10,000 seats.	3,119
DMAIC Analyzer Cloud Integrated - Tier 2 - 50 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 50 Domains. Customers with 250 to 999 seats.	2,401
DMAIC Analyzer Cloud Integrated - Tier 3 - 50 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 50 Domains. Customers with 250 to 999 seats.	1,716
DMAIC Analyzer Cloud Integrated - Tier 4 - 50 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 50 Domains. Customers with fewer than 250 seats.	1,106
DMAIC Analyzer Cloud Integrated - Tier 1 - 100 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 100 Domains. For customers with more than 10,000 seats.	4,217
DMAIC Analyzer Cloud Integrated - Tier 2 - 100 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 100 Domains. For customers with 1,000 to 9,999 seats.	3,243
DMAIC Analyzer Cloud Integrated - Tier 3 - 100 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 100 Domains. Customers with 250 to 999 seats.	2,311
DMAIC Analyzer Cloud Integrated - Tier 4 - 100 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 100 Domains. Customers with fewer than 250 seats.	1,484
DMAIC Analyzer Cloud Integrated - Tier 1 - 250 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 250 Domains. For customers with more than 10,000 seats.	5,702
DMAIC Analyzer Cloud Integrated - Tier 2 - 250 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 250 Domains. For customers with 1,000 to 9,999 seats.	4,390
DMAIC Analyzer Cloud Integrated - Tier 3 - 250 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 250 Domains. Customers with 250 to 999 seats.	3,136
DMAIC Analyzer Cloud Integrated - Tier 4 - 250 Domains	DMAIC Analyzer accessed via the Email Security, Cloud Integrated product suite. DMAIC Analyzer, get full visibility and control of who sends emails on your behalf by accelerating and simplifying implementation of the DMAIC protocol. 250 Domains. Customers with fewer than 250 seats.	2,022
DMAIC Analyzer Cloud Integrated - SPF Delegation - 1 domain	SPF delegation to manage SPF records that have exceeded the DNS Lookup limit - 1 Domain	50
DMAIC Analyzer Cloud Integrated - SPF Delegation - 3 domains	SPF delegation to manage SPF records that have exceeded the DNS Lookup limit - 3 Domains	83
DMAIC Analyzer Cloud Integrated - SPF Delegation - 5 domains	SPF delegation to manage SPF records that have exceeded the DNS Lookup limit - 5 Domains	116
DMAIC Analyzer Cloud Integrated - SPF Delegation - 10 domains	SPF delegation to manage SPF records that have exceeded the DNS Lookup limit - 10 Domains	165
DMAIC Analyzer Cloud Integrated - SPF Delegation - 50 domains	SPF delegation to manage SPF records that have exceeded the DNS Lookup limit - 50 Domains	330
DMAIC Analyzer Cloud Integrated - Fundamentals	DMA CI SaaS Fundamentals: platform access for 3 users & 5 email domains. Data retained for 90 days.	396

Data Migration Services	Description
Mimecast Data Export Services	Export of Customer Data from within Mimecast
Mimecast Data Import	Any situation requiring Mimecast to import customer provided data. This does NOT include extraction from legacy archive. Minimum order of 10TB.
Mimecast Internal Data Migration	This SKU is to be used in case a Data Migration is needed from one Mimecast account to another. Use cases being: Company A, bought Company B Company B, bought Company A Company A needs to move from one grid to another (due to geo requirements) Company A is a AAA account and is restructuring Company A is setting up a new office/account Company A has users moving offices/geo location
Mimecast Managed Migration (E2E)	Mimecast managed migration using the Simply Migrate Client and API (E2E). Minimum order is 3TB.
Partner Managed Migration	Partner managed migration using the Simply Migrate Client and API. This includes extraction and/or import of legacy customer data.
Partner Managed Extraction	Extraction of customer data from customers legacy archive. The work is conducted by the Partner. SKU is to only be used when unable to transact on the Partner's page.
DMAIC Analyzer Implementation	DMA implementation containing set up users and domains, training, DNS briefing and DMAIC plan
DMAIC Analyzer Cloud Integrated Implementation	DMA CI Implementation containing set up users and domains, training, DNS briefing and DMAIC plan
Assisted Implementation	Onboarding that includes Kick off call, Mimecast Solution overview document/equivalent of a High level design), Policy workshop, Email Security Setup Wizard, weekly case updates, branding, Administrator console walkthrough, API, KT documentation, Business as Usual handover, closure call with Customer support, post go-live review and incident playbook.
