

Redinet offers a flexible range of managed IT and Cloud services designed to meet our clients' specific requirements, enabling organisations to focus on their primary business.

Information technology is constantly evolving and we have the infrastructure, tools and services to ensure our clients are able to achieve their goals in the most efficient and effective manner. Redinet takes care of the IT infrastructure so you can concentrate on taking your business to the next level.

Our aim is to provide you with an infrastructure that reduces risk, and allows you to become more profitable. We want to get to know your business and believe the closer we are allowed to work with our customers, the more value we can provide.

Ultimately, we endeavour to form long-term partnerships.

Mimecast

Mimecast has safeguarded our customers and email for twice as long as most gatewayless vendors have been in business. When you need to Work Protected, you need Mimecast. Key Information: Over 1.3 Billion emails inspected every day for over 40,000 customers.

More than 90% of cyberattacks start with email, and attacks are growing in volume and sophistication. From phishing and ransomware to credential theft and zero-day attacks, organizations of all shapes and sizes face a new world of risk. Get the most advanced email protection in the industry, delivered in the simplest way possible, with Email Security, Cloud Integrated.
