** based on 500,000 pages year*

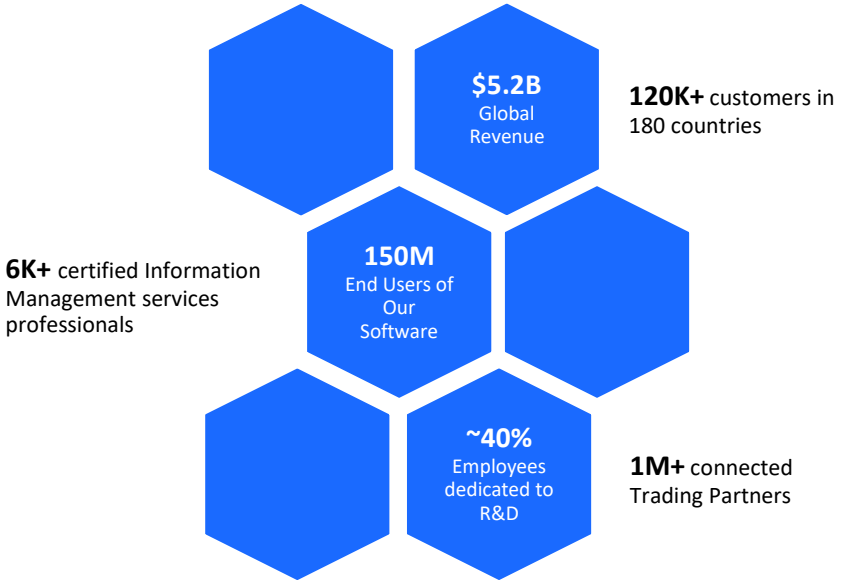

Pricing Assumptions

- The pricing above is based on a 36-month term. This will require the 3-year Framework term. Alternative time frames are available upon request.
- The unit price detailed above is based on an order quantity of 300 named users and a page volume of 500,000 per year. Higher volume prices are available, the level of discount will vary according to customer specific requirements.
- Minimum Order Quantity is 25 Named Users and 120,000 pages per year.
- Minimum Term is 12 months.
- Pricing detailed is based on ‘used’ services. Once users are made available in the service, they are deemed as ‘used’.
- APA – 7.5% Year on year increase on above pricing.
- Payment is required within 30 days of invoice.

Optional Additional Services

The table below shows the optional available solutions relating to this service, pricing details will depend on customer requirements and the existing OpenText solutions provided. Pricing is available upon request.

Service Name	Description
OpenText Core Capture for SAP Solutions	Provides cloud-based capture specifically configured and certified to work cloud-to-cloud with SAP and ensure that incoming documents are classified, key information is extracted via OCR and metadata is added for use in SAP.
OpenText Core Capture for Salesforce	This Salesforce app integrates Salesforce with OpenText Core Capture. The SaaS offering classifies documents and extracts data based on OCR and AI, enabling automated workflows built with Salesforce Flow.
