# OpenText Information Archive for G-Cloud 15

## Pricing

| Service Name | Unit | Per TB, Per annum £ |
|---|---|---|
| OpenText Information Archive – GCLOUD Edition | Terabyte | £11,866 |

## Assumptions

- The pricing above is detailed based on a 3-year term. This will require the 3-year term as permitted by the G-Cloud Framework Terms. Alternative time frames are available upon request.
- The unit price detailed above is based on an order quantity of storage for 20TB, split evenly between structured data and unstructured data and is based on an ingestion throughput of up to 570GB per month and up to 5,700 queries (e.g. search or download requests) per day.
- Higher and lower volume prices are available depending on customers' unique and specific requirements. The level of discount will vary according to customer requirements and the volumes required.
- Pricing detailed is based on 'used' services. Once users and storage capacity are made available in the service, they are deemed as 'used'.
- Minimum Order Quantity is 2 Terabyte.
- If alternative throughput is required, we can provide pricing for this depending on customer specific requirements.
- Standard service levels:
    - Target service availability: 99.5%
    - RTO: 7 days
    - RPO: 24 hours
- APA – 7.5% Year on year increase on above pricing.
- Payment is required within 30 days of invoice.
- Prices are in GB Sterling.
- Prices are exclusive of VAT.
- Additional Pricing Options are available for optional Aviator AI Solutions depending upon customer requirements specific to the deployment.
