**Access 30,000+
pre-qualified
subcontractors
in our network**

The Once For All Group comprises Europe's fastest-growing network of supply chain management, risk and compliance solutions for the Construction industry. With tools like Marketplace, we aim to quickly and easily connect Main Contractors with subcontractors matched to their Tender requirements, and fulfil our mission to build a safer future, for all.

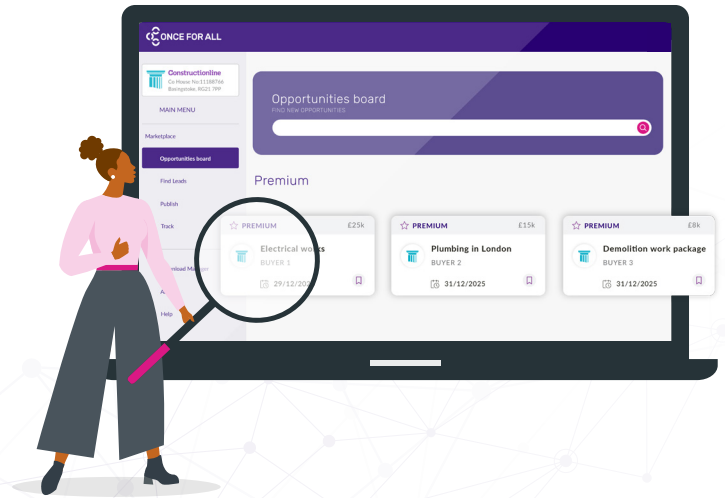

David Hornsby
CEO, Once For All

Opportunities Board

A simpler way to publish EOIs and get more pricing responses

- ✓ Expand your existing supply chain
- ✓ Ensure coverage when expanding into new regions or sectors
- ✓ Consider prices from suppliers you haven't used before
- ✓ Eliminate slow response times from your current supply chain
- ✓ Establish firm deadlines for responses
- ✓ Maintain healthy competition to ensure competitive pricing

Marketplace Live Events

Expand your project outreach and connect with subcontractors face to face

Exhibit at our Marketplace Live events across the UK throughout the year!

Why should you exhibit at Marketplace Live?

Source new suppliers for your supply chain and connect with existing ones in the local area

Promote your supply chain requirements through Marketplace

Access lead data from attendees using our Events App

Marketplace Live provided us with great exposure, a chance to network and speak to attendees. We were able to build new contacts and generate new business leads.

Tender Management

An easier way to streamline your tender enquiries, on one platform – no more scattered spreadsheets!

- ✓ Streamline your tender enquiries process
- ✓ Send and manage enquiries, ITTs, and quotes with greater efficiency
- ✓ Identify addendum changes in a few clicks
- ✓ Centralise bids to ensure a full audit trail
- ✓ Reach out to additional subcontractors not on your supply chain
- ✓ Create ITTs and publish to the **Opportunities Board** for more pricing responses

Join over 250 customers already using Tender Management to support their tender enquiries

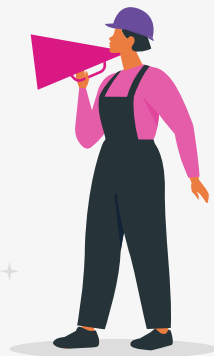

Save up to
74%
tendering time!

Did you know?
Only 1 in 7 tenders are successful, on average

It saves time in the enquiries process, improves the quality of those enquiries, provides insights into subcontractor performance, and reduces the risk of missing cost significant details.

Curo Construction

Efficiency Calculator

See how much time you could save in your tender enquiries!

Answer a few quick questions and get a **personalised report** with clear insights into how you can enhance your tender process and boost productivity.

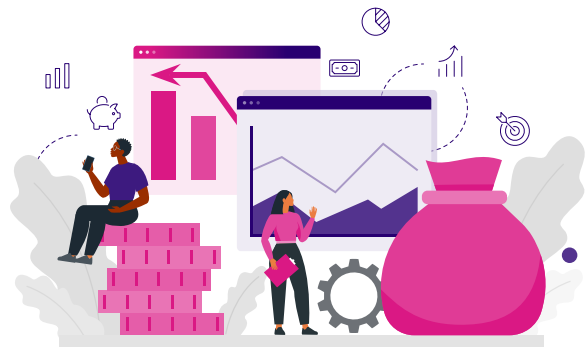

Calculate your savings

Estimators' Club

Want to connect with more estimators? Join our Tender Management Estimators' Club!

- ✓ Expert Q&A on Tender Management.
- ✓ Solutions for tendering challenges to enhance efficiency.
- ✓ Networking opportunities with fellow estimators.

Risk and Performance

Nearly 11 subcontractors go insolvent each day in the UK. (as of 2025)

Costly delays to project delivery

Cost and time replacing an insolvent supplier

Reputational damage

Spread of distress to connected entities

Are these risks you're willing to take?

Protect your supply chain and projects with Risk Radar

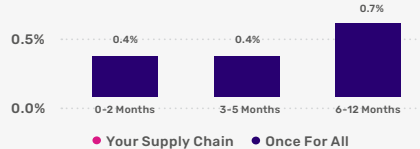

Detect supplier issues earlier.
Protect live projects.

-  Risk Radar

No. Firms in Distress

No. Firms with Early Warning

Why do customers use Risk Radar?

Proprietary data combined with AI-mined industry-specific data from:

Risk Radar is central to how we select subcontractors and monitor them throughout delivery. It gives us confidence, consistency and early visibility of risk.

Major Tier 1 Buyer Partner

What's included in Risk Radar?

Risk Foresight

Enhanced Data Sets

Enhance your due diligence and spot high-risk suppliers early

Network Industry Distress

View suppliers at risk of insolvency

Contagion Risk

Detect hidden vulnerabilities in your extended network before they escalate

Regulatory Data

Adverse Media

Real-time monitoring of global reputation risk, from financial misconduct to ESG breaches

PEPs & Sanctions

Prevent supply chain corruption, bribery and sanction breaches that can disqualify you from bidding

Tax Avoidance Schemes & Litigation Decisions

Direct insights into suppliers or advisors flagged for aggressive tax practices

Deliberate Tax Defaulters

Avoid working with suppliers publicly named by HMRC for avoiding complying tax law

National Minimum Wage Naming Scheme

Flags companies named by HMRC for breaching National Minimum Wage law

Competition & Markets Authority (CMA) Cases

Steer clear of fined and blacklisted firms for anti-competitive behaviour

Construction Court

Surfaces court rulings on disputes, including fire safety, environmental issues and contractual failures

Supplier Performance Management

Our Supplier Performance Management solution helps you dive deeper into your suppliers' performance.

Can you name your top 3 performing contractors?

Gain confidence in your suppliers and make better decisions

Send automated questionnaires to other main contractors and get the insights you need!

Choose KPIs that matter most to your business

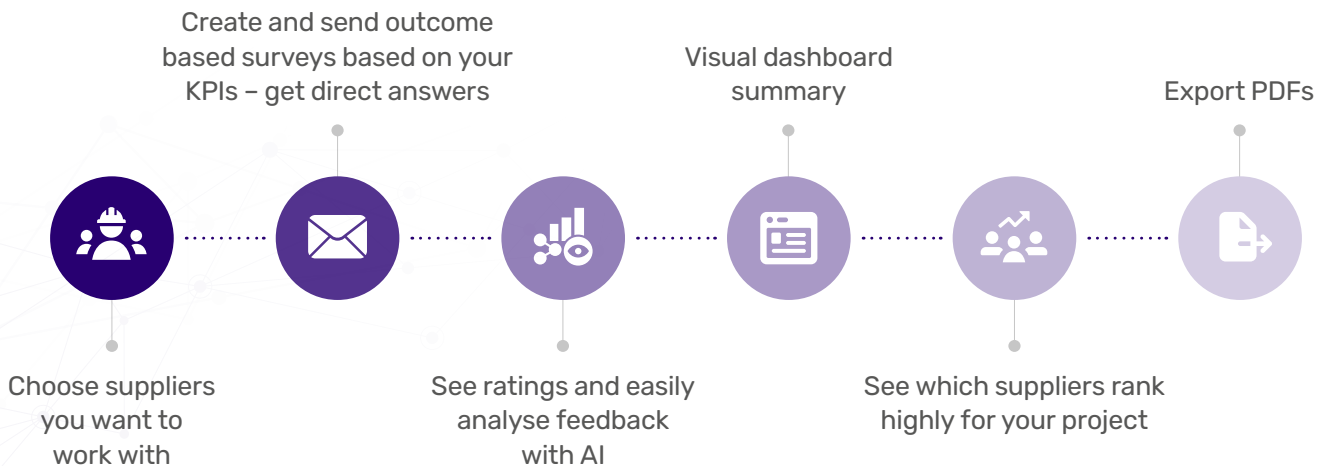

Streamline your supplier relationship management process

Why use Supplier Performance Management?

Supplier Performance Management helps you save time and leave manual processes behind.

- ✓ Track performance metrics and KPIs that impact your build schedule – not just price but quality, safety and reliability
- ✓ Work only with high-performing, reliable subcontractors backed by verified site performance data
- ✓ Convert site observations into actionable insights that prevent future issues
- ✓ Meet ISO 9001: 2015 Clause 8.4 compliance
- ✓ Eliminate time-consuming spreadsheets – leave manual processes in the past

Key features

Clear Dashboard View

Use built-in AI to turn complex data into simple, real-time visuals

Simplified Supplier Ratings

Transform supplier ratings into strategic insights so you can make confident decisions

Customisable Supplier Scorecard

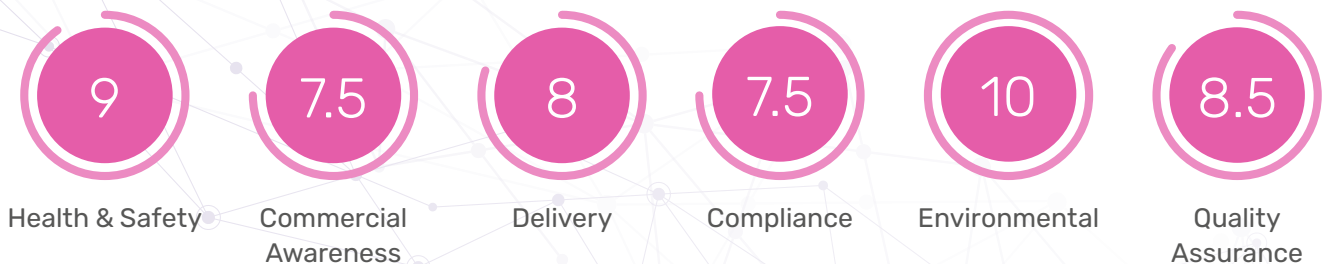

Sort and rank suppliers by KPIs, generate detailed reports, and make informed decisions

Evaluate supplier performance effortlessly with just a few clicks

Transform raw data into clear, results-driven decisions

Track the metrics that matter

A simpler way to track your external suppliers' performance

Our solution helps you meet ISO 9001: 2015 Clause 8.4

We collect the data. You make the decisions.
