

Cloud Support Pricing

Price ex VAT	Coverage
£650 per annum	Based on 10 hours support per year. The hours will be activated 1 business day after a purchase order is received. If time is not used within the 12 month service period, the time purchased cannot be refunded or carried over into the next period. If hours are all used before the end of the 12 month service period, additional hours can be purchased to top up the service contract until the end of the service period. Alternatively if no additional hours are required the service contract will be deemed as expired. Note: Bespoke pricing is also available upon request where you can select only the services and coverage required by the organisation to create a custom designed support package.

Cloud Security Check Service

Price ex VAT	Coverage
£650 per day	Our Cloud Security Check service is based on our fixed day rate per system dependent on completion of the Cloud Security Check prerequisite survey. This service can also be purchased as a 36-month service which guarantees three Security checks one per year for three years at the same price purchased in year 1. Costs may be subject to change during the 3 year period, if the buying organisation introduces a different platform to that of what was audited in year 1.
