Introduction

Dataiku delivers a use case and data agnostic scalable cloud software solution, which offers an easy to use visual flow for all data analytics and AI projects delivering superior efficiency gains and standardised governance. All end-users, coder & low/no-coder alike, can collaborate in projects through simple browser access. Starting with unified easy to follow steps for data pipeline and data cleansing tasks to reduce manual processing and then deliver insights and apply analytics models including ML in an explainable and fully documented manner. Projects benefit from an open plugin architecture allowing project customisations and addressing diverse requirements including unstructured (documents, images, NLP etc) or streaming data. Analytics insights are shared through dashboards including Tableau or PowerBI and applications. Governance includes automated audit logging, model documentation and granular access controls.

Dataiku Editions - Business & Enterprise Comparison

	Edition:	Business	Enterprise
Number of Designer User		min 5 - max 21	min 5 - Unlimited
Nodes & Core Capabilities	Design nodes	1	Unlimited
	Automation Nodes	1	Unlimited
	Automation features (scheduling, checks)	•	•
	API Serving	Up to 5 models	•
	Deployer	•	•
	Govern Node		•
	Models export (Snowflake UDF, JAR, PMML)		•
Setup Options	Deployment type	Customer's Cloud	Customer's Cloud
	Automatic upgrades, auto-healing, fully-managed	•	•
Data Connectivity	SQL Databases	All but Teradata/HANA/Netezza	All
	Other data sources	• (incl op-prem)	• (incl. on-prem)
	Extend capabilities with plugins	•	•
Computation Options	Leverage Elastic Compute via Kubernetes (incl. GPU)	•	•
	Execution concurrency	unlimited	unlimited
	Run computation in-database (SQL)	All but Teradata/Hana/Netezza	All
Coding	Python, SQL (on supported databases)	•	•
	R	•	•
	Spark code	•	•
	Plugin development	•	•
	Arbitrary Python and R Packages	•	•
Security	Role-based security	•	•
	LDAP	•	•
	SSO (SAML)		•
	User Isolation	•	•
Administration	Free test / integration / UAT nodes		•
	Free platform admins		•
	Administration interface	Native in DSS + Fleet Manager (fully configurable)	Native in DSS + Fleet Manager (fully configurable)
	Centralised licence management & update		•
	Centralised instances monitoring	•	•
Governance	Centralised models registry		•
	Models and projects lifecycle management and approvals		•

Dataiku Annual Subscription - Business Edition

Initial Order Pack per Customer including # Number of Designer Users	Business Edition - per Designer User Subscription Fee per month	Total Annual Subscription Fee
5	1,691	**101,430**
7	1,305	**109,590**
9	1,090	**117,750**
11	954	**125,910**
13	859	**134,070**
15	790	**142,230**
17	737	**150,390**
19	695	**158,550**
21	662	**166,710**

One-Off Supporting Implementation & On-Boarding Services for Business Edition [mandatory add-on for New Customers)	Package Price
To include Installation and Deployment Support, Discovery Training (up to 20 users), Coaching Sessions (8*2h Sessions), Use Case Ideation, Lightweight AI Maturity Assessment	19,250

Dataiku Annual Subscription - Enterprise Edition

Initial Order Pack per Customer including # Number of Designer Users	Enterprise Edition - per Designer User Subscription Fee per month	Total Annual Subscription Fee
5	3,990	**239,388**
7	2,947	**247,548**
9	2,368	**255,708**
11	1,999	**263,868**
13	1,744	**272,028**
15	1,557	**280,188**
17	1,413	**288,348**
19	1,300	**296,508**
21	1,209	**304,668**

One-Off Supporting Implementation & On-Boarding Services for Enterprise Edition [mandatory add-on for New Customers)	Package Price
Includes Installation and Deployment Support in a single Cloud environment, Discovery Training (up to 40 users), Coaching Sessions (12*2h Sessions), Use Case Ideation, AI Maturity Assessment	**36,350**

Add-On Product Packs

Prerequisite: Any Initial Order Pack above fully implemented by the customer

Available Add-Ons	Named User Scope	Subscription Fee per User per Month	Total Annual Subscription Fee per Pack
5 Designer User Pack	Dataiku Named User with full access to all features across all subscribed to node types (Design, Automation, Deployer | Enterprise only: Govern)	354	**21,216**
5 Explorer Users Pack	Dataiku Named User who can: * access and explore all assets across all node types * create charts and dashboards and manage content of workspaces on Design and Automation nodes	33	**1,997**
5 Reader User Pack	Dataiku Named User who can view workspaces, dashboards and webapps on the Design and Automation nodes	7	**420**

Professional Consulting Day Rate [Data Scientists, Field Engineer, General AI & Analytics Consultant]	**1,900**

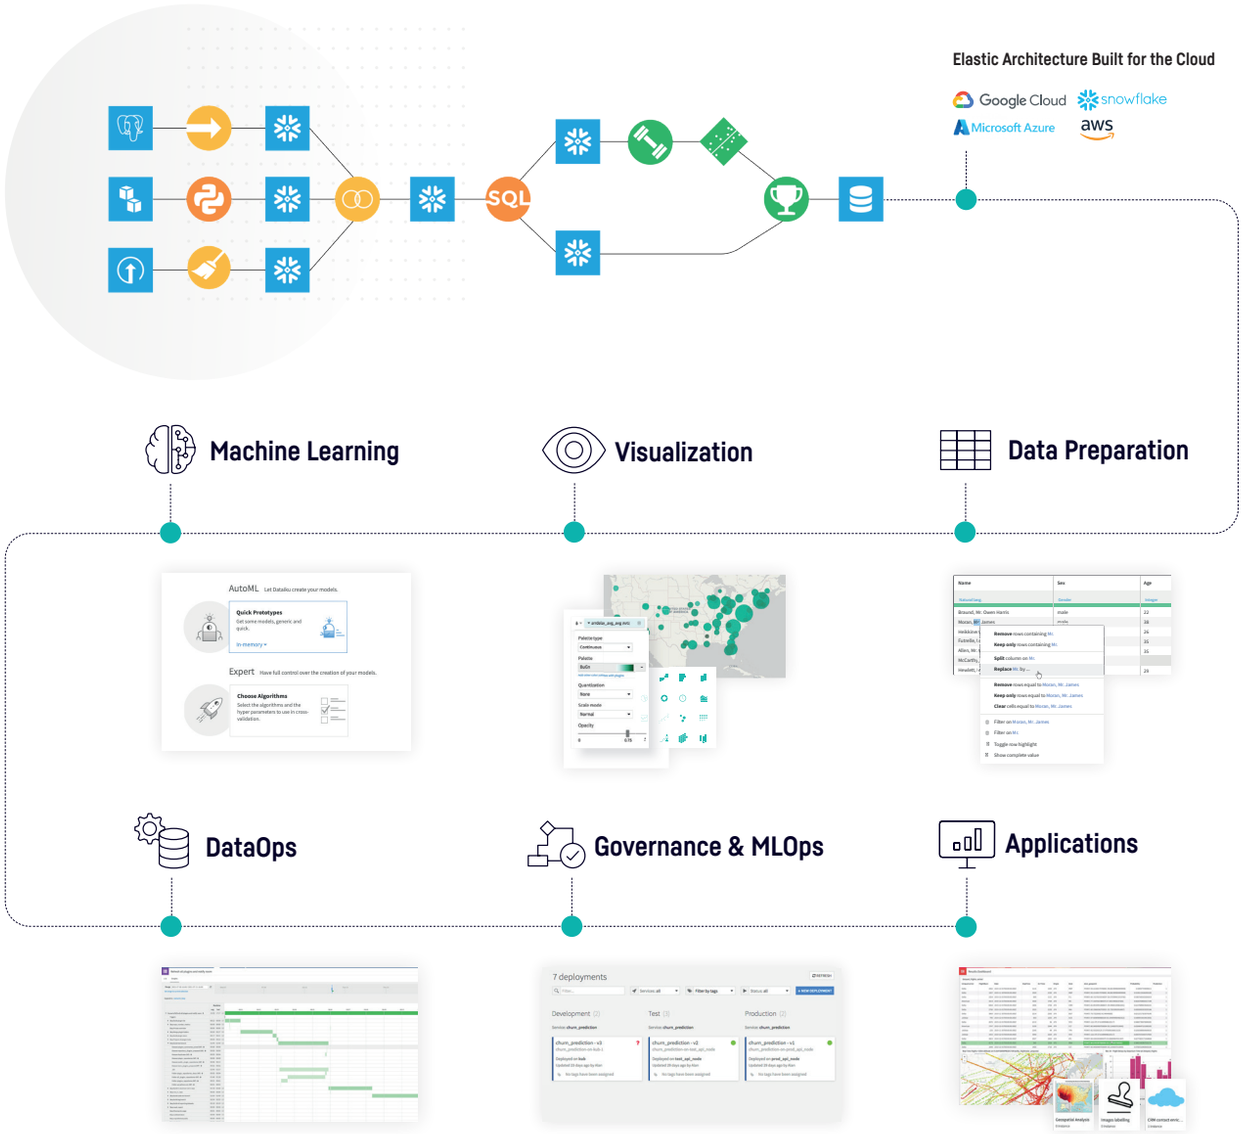

ALL PRICES CONTAINED IN THIS DOCUMENT ARE IN GBP EXCL. APPLICABLE TAXES

- Enterprise edition deals & time limited discounts may be available
- Individual Prices may increase during the subscription term as per CCS guidelines
- Annual Subscription Fees are non-refundable
