Pricing & Rate Card

January 2026

Pure IP Pricing model

Pure IP does not offer a bundle / license pricing model. Pure IP uses a consumption pricing model based on a subscription per DDI and channel and per minute call charges. There are no specific bundles of minutes included in our proposal.

Our price methodology is described below. We have detailed what elements contribute to the costs.

- One-off setup costs (non-recurring costs - NRC)
- Fixed monthly recurring fees (number and channel rental – Monthly Recurring Costs - MRC)
- Variable call costs (based on calls made)

Trial Information

A one-month free trial is available including:

- 5 UK numbers
- 5 channels
- £10 call credit

Additional usage beyond these limits is chargeable.

Service Notes

- Minimum order of 10 channels and 100 DDIs (new orders)
- Minimum port charge of £50
- Number of channels depends on the expected traffic and contention rates. There would typically be 1 channel for 20-40 numbers, but higher traffic volumes would require more channels.

Unlimited Usage Channels

UK Unlimited Usage Channels provide unlimited outbound calls to UK landline and mobile numbers. Sold per channel, each channel supports one concurrent PSTN call at a time.

- Included: Outbound PSTN calls to UK landline and mobile numbers within area codes 01x, 02x, and 07x. Included mobile networks: H3G, O2, EE, T-Mobile, VMNO, Vodafone, Sky, Virgin, Lyca, and Gamma.
- Excluded: Calls to the Channel Islands, Isle of Man, non-geographic, toll-free, special, premium rate, and operator service numbers. Calls from non-UK DID's to UK destinations are not included.
- UK Region Sharing: Channels apply to UK numbers only. Calls to UK destinations from non-UK numbers are billed at the standard per-minute rate.
