

G-Cloud 15 Wavenet Pricing Document

Cyber Security Pricing Document | 30/01/2026

Document information

Document Scope Introduction

Wavenet Limited is a specialist Cloud Services company offering a range of hosted solutions for Data, Voice and Connectivity.

This pricing guide is divided into six sections:

- Cloud Hosting Services
- Cloud Software Services
- Wavenet Limited Support and Services

Wavenet Limited offer both managed and self-service Cloud platforms built across multiple UK Secure datacenters with multiple interconnects to provide a resilient UK based environment.

The services provided are built on back-end VMware and Hyper-V platforms and can be tenanted or dedicated depending on the end user compliancy requirements. These includes services such-as but not limited to Operating system, monitoring, management, patching, anti-virus, system administration and 24/7 pro-active support.

Each service is priced on a per unit, per hour or month basis dependent on the type of service required and all products and services relate to the minimum terms and terms and conditions of the contract.

For more help with pricing calculations please contact the Wavenet Limited sales team on 03300412700.

Our full terms and conditions and other information relating to our company, products and services please visit our website <https://www.wavenet.co.uk>.

Services and subscriptions listed within this pricing guide are for reference only and are subject to Wavenet Limited terms and conditions.

Some/part or all services listed within the pricing guide are dependent on other services to be subscribed to for the full solution. For example; (but not limited to) A virtual server instance must have RAM, CPU and storage assigned to it.

Wavenet Limited will also recommend certain products or solutions are delivered with security or support services to ensure the security, protection and management of the service.

These requirements and dependencies will be discussed at contractual stage.
