Document Scope Introduction

Wavenet Limited is a specialist Cloud Services company offering a range of hosted solutions for Data, Voice and Connectivity.

Wavenet Limited offer both managed and self-service Cloud platforms built across multiple UK Secure datacenters with multiple interconnects to provide a resilient UK based environment.

The services provided are built on back-end VMware and Hyper-V platforms and can be tenanted or dedicated depending on the end user compliancy requirements. These includes services such-as but not limited to Operating system, monitoring, management, patching, anti-virus, system administration and 24/7 pro-active support.

For more help with pricing calculations please contact the Wavenet Limited sales team on 03300412700.

Our full terms and conditions and other information relating to our company, products and services please visit our website <https://www.wavenet.co.uk>.

Services and subscriptions listed within this pricing guide are for reference only and are subject to Wavenet Limited terms and conditions.

Some/part or all services listed within the pricing guide are dependent on other services to be subscribed to for the full solution. For example; (but not limited to) A virtual server instance must have RAM, CPU and storage assigned to it.

Wavenet Limited will also recommend certain products or solutions are delivered with security or support services to ensure the security, protection and management of the service.

These requirements and dependencies will be discussed at contractual stage.

Cloud Software Services (Lot 2)

Wavenet Microsoft 365 and Azure Services

The specific Microsoft subscription and/or licensing costs will be determined by the subscribed services typically on a per user per month basis.

Microsoft has its own pricing structure and is subject to change, the links in this document provide Microsoft list pricing. As a certified Cloud Solution Provider (CSP) and an authorised reseller of Microsoft, we are able to obtain improved pricing from Microsoft and will supply this on application.

Furthermore, as a solution partner for Data & AI, Digital and App Innovation, Infrastructure, Modern Work and Security we are able to add further value to the relationship.
