Implementation and Configuration costs

Regulator Smart is designed to streamline the implementation process and therefore reduce costs while offering regulators the same tried and tested base product with a wealth of functionality designed specifically for regulators.

The below table outlines the upfront implementation cost for each regulator smart module. Prices are one-off implementation fees payable at agreed points throughout the implementation timeline and exclusive of VAT:

Regulator Smart Module	Implementation Cost
Registration	£65,000 (one off fee)
Fitness to Practise / Case Management	£45,000 (one off fee)
Continuous Professional Development	£40,000 (one off fee)
Events	£20,000 (one off fee)
Adjudication	£45,000 (one off fee)

SaaS Subscription Fees (Recurring)

The below table outlines the recurring SaaS fees payable following any upfront Implementation support costs opted for by the client.

All (recurring) costs outlined within this document are per month and exclude VAT.

Regulator Smart Pricing

Subscription Fees	Cost
1. Base Subscription (Azure hosting charge)	£700 per month
2. Cost per active registrant or other entity – to be captured monthly via census on the last business day of each month. This figure will determine these costs monthly	£0.90 per registrant
