Age Verification	10 credits
Person Verification	20 credits

Additional Service Charges (Bolt ons to an ORBIS licence)

Charged in Tokens per Transaction
£1 per token

Land Registry (in tokens)

Search Method 1 – Owner Verification

Charged at **1 token** per check

Owner Verification is a search on the LR database where the user submits a person's name and address (which may or may not be found from an Orbis Network search) and the returned result will confirm if that person is the registered owner of the property at that address. In the case of partial matching, the user will be advised of this.

Search Method 2 – Title Deed Search

Charged at **4 tokens** per check

Title Deed is a search whereby the user submits an address and the LR database is searched for any Title Deed associated with the property at that address. If found, Orbis will return a copy of that Title Deed in pdf format to the user's web browser. An option to download the pdf file to the user's workstation is browser and security dependent and is outside the control of Simunix.

Search Method 3 – Title Deed with Plan

Charged at **8 tokens** per check

As Search Method 2 above except the returned pdf file will also include the plan of the property lodged with LR.

Continued on page 3...

Optical Character Recognition and Biometric Face Scanning (in tokens)

Search Method 1 - **OCR (Optical Character Recognition)**

Charged at **1 token** per upload

OCR is the process of uploading an image of an Identity Document and reading the information supplied. Such as name / DOB / Address details / License or passport number, and matching it to the name and address data in ORBIS.

Search Method 2 - **Biometric Facial Recognition Scanning**

Charged at **2 tokens** per upload

Biometric FRS is the process of uploading an image as in OCR, then uploading a face scan. The process then matches the image on the Identity.

Bank Account Validation (in tokens)

Bank Account Validation provides checks against business bank details to confirm they are accurate and associated with said business.

2 tokens per check within 500 checks per month

1.75 tokens per check between 501-1000 check per month

1.50 tokens per check between 1001-2000 checks per month (as per call off agreement)
