

SERVICE DESCRIPTION

Continuous Penetration Testing

CSA Cyber has delivered trusted penetration testing services across commercial and public sectors since 2006. Our Continuous Penetration Testing (CPT) service extends this expertise into an ongoing assurance model, providing persistent assessment and rapid identification of emerging vulnerabilities throughout the year.

Our CPT service gives you continuous access to highly qualified consultants, specialist support, and practice leads across all major testing disciplines.

With a dedicated operations function and a platform-centric delivery model, we ensure seamless engagement, clear visibility of findings, and ongoing expert guidance as your environment evolves.

In brief, CPT provides:

- ✓ A highly experienced consultancy team delivering continuous assessments
- ✓ Specialist services for complex or non-standard requirements
- ✓ Practice leads offering continuous domain expertise
- ✓ Operations support for smooth, repeatable delivery
- ✓ Platform-driven visibility and efficiency across the entire testing lifecycle

BENEFITS

- Year-round assurance combining the best of automated capability and manual testing techniques
- Powerful platform - Vulnerability Management, Scanning, Asset Management, Remediation Tracking
- An extension of your team - Our team has your back all year round for ongoing support and advice as you need it
- Avoid PDFs - Our platform lets you manage vulnerabilities interactively so you can avoid working in PDFs and Excel sheets, although you can download PDF, Excel and CSV file types if required.
- Real-time reporting - See discovered vulnerabilities in real-time, allowing rapid and efficient remediation.
- Included retesting - Our retesting guarantee covers retesting of web exploitable critical and high vulnerabilities FoC.
