SERVICE DESCRIPTION

External Attack Surface Management (EASM)

CSA Cyber's External Attack Surface Management (EASM) service provides continuous, expert-led visibility of your organisation's internet-facing assets. Through automated discovery, monitoring, and analyst validation, we identify unknown assets, misconfigurations, exposed data, and vulnerabilities before they can be exploited. The service is delivered through three clearly defined tiers, enabling alignment with organisational size, complexity, and maturity.

Feature overview:

- ✓ Automated discovery of shadow IT and cloud-hosted services
- ✓ Identification of vulnerabilities, misconfigurations, and exposed data
- ✓ Data leak and credential exposure monitoring
- ✓ Analyst validation to reduce false positives
- ✓ Prioritised, risk-based guidance
- ✓ Monthly or quarterly reporting

Service Tiers

- Tier 1 – Foundation (SMB) - Core attack surface discovery, visibility of exposed assets, and identification of basic risks.
- Tier 2 – Enhanced (Mid-Market) - Extended coverage including external data exposure, brand-related risks, and deeper digital footprint intelligence.
- Tier 3 – Advanced (Enterprise) - Comprehensive, high-fidelity attack surface intelligence with real-time detection, complex estate support, and enhanced analysis.

BENEFITS

- Improved visibility of your organisation's digital footprint
- Early identification of exposures that increase breach likelihood
- Reduced operational noise through expert-led triage
- Strengthened governance with evidence-based reporting
- Enhanced ability to demonstrate compliance and manage external cyber risk

CREST Security Operations – Security Operations Centre
CREST Incident Management – Incident Response
CREST Security Testing – Penetration Testing
CREST Red Teaming – Intelligence-led Pen Test
CREST Security Testing – Vulnerability Assessment

Assured Service Provider – in association with National Cyber Security Centre – CHECK Penetration Testing

Assured Service Provider – in association with National Cyber Security Centre – Cyber Incident Response: Standard Level
