Service Description

Kerv delivers comprehensive Microsoft Cloud Solution Provider (CSP) services across New Commerce Experience (NCE), enabling small to Enterprise organisations to optimise M365, O365, Dynamics 365, Power Platform, Copilot, other AI and Azure. We provide expert licensing, management and support to maximise value, compliance and innovation across the full Microsoft cloud ecosystem.

Features

- Self Service Licence Procurement and Management Portal.
- Microsoft Premier Level Partner Support.
- Proactive Cost Optimisation Recommendations.
- Support to Maintain Licence Compliance.
- Bespoke Additional Service Options.
- Subscription lifecycle management, including renewal oversight.

Benefits

- Faster, more controlled licence management, enabling teams to procure and adjust Microsoft cloud licences instantly through a self-service portal.
- Reduced operational overhead, with automated licence administration removing manual workflows and freeing internal IT resources.
- Enhanced reliability and faster issue resolution through access to Microsoft Premier-level partner support.
- Optimised Microsoft cloud spend, driven by proactive recommendations that identify unnecessary licences and cost-saving opportunities.
- Improved compliance and reduced risk, with expert guidance ensuring licences remain aligned to Microsoft terms and organisational usage.
- Greater flexibility to adapt to business change, with scalable provisioning and supporting services that evolve with organisational needs
- Increased transparency and governance, thanks to clear visibility of usage, costs, renewals and commitments across all Microsoft cloud services.
- Stronger value realisation from Microsoft investments, ensuring tools like M365, O365, Dynamics 365, Power Platform and Azure deliver measurable business outcomes.
- Streamlined support experience, with a single partner responsible for guidance, escalation, billing and ongoing lifecycle management.
- Customisable service wrap, allowing organisations to add tailored support, consultancy or managed services to match specific operational or compliance requirements.

How We Plan Our Service:

We provide a flexible and collaborative approach to planning and strategy development, from ideation (including business case writing), all the way through to live service and subsequent continuous improvement. We have a dedicated project management office that specialises in technology delivery and have experience at all stages of the programme lifecycle, including supporting service development from pre-alpha onwards.

We do this through a proven, GDS aligned, Agile Scrum and PRINCE2 wrapped methodology, combined with ITIL-based operational service delivery (using our award-winning DevSecOps capability). Our preference is to work openly through sprints with customers and partners, using a one-team, one-goal approach, and use a continuous delivery principle to provide demonstrable benefit as early as possible in all of our work.

Whilst implementation phases are run as a series of Agile sprints, the inputs, outputs and processes governing them are closely monitored and tightly controlled. Project plans are aligned with deliverables and a burn-up of points is used to provide clear activity status, leading to a high degree of confidence in milestones.

B Corp Sustainability Partner

Sustainability isn't a choice; it's a responsibility

Our commitment to sustainability is embedded into every aspect of our business. From the very beginning, our ambition has been to build a values-first organisation where technology specialists are empowered to thrive and create meaningful, lasting impact.

Every day, we live our mission from attracting top talent and winning new customers to securing investment from Bridgepoint DC and receiving Great Place to Work certifications in both the UK and India. Our people, customer, investors, and community expect us to lead the way by following a sustainable strategy, and we are more than ready.

Through our relentless pursuit of purpose-driven impact, we accelerate the way we make a difference. One thing's for sure: we'll always keep evolving, raising the bar for a smarter, more sustainable future.

About Kerv

We help your business get ahead - and stay there.

Tech should put people first, so culture is crucial. Combining ingenuity and emotional intelligence, we use advanced technology to solve your trickiest problems in smart and human-centred ways.

Kerv Digital continues Kerv's mission of delivering disruptive tech with business and social impact. Whether you want to increase productivity or make better decisions, we use custom accelerators to get you ROI in record time. Get ready for digital transformation done different.

Data

Exploit your data to make more informed decisions. We'll help you harness Microsoft Dataverse, Artificial Intelligence and predictive insights to uncover hidden opportunities and get ahead.

Experience design

Get to the root of your problems and prototype solutions at Design Thinking and Catalyst Workshops. Then we build the intuitive, accessible tech that meets your unique needs.

Software development

Don't spend on problems we've already solved. Component-led design means we've got a huge library of problem-solving code and add-ons. Which makes your bespoke software more economical.

DevSecOps

Maximise uptime and regularly deploy updated code through industry-leading CI/CD approaches. We've supported some of the UK's largest live software deployments.

Microsoft Power Platform

Building on Microsoft Power Platform and adding our accelerators and Centre of Excellence support, we'll help you improve and innovate across multiple departments and business cases.

Microsoft Dynamics 365

Take the problem-solving capacity of Microsoft Dynamics 365 to another level for your business - with our user experience design and free, sector-specific accelerators.
