

Onefile RPL Funding Calculator

Service Description

1. Service Summary

Onefile RPL Funding Calculator is a cloud-based service that supports recognition of prior learning through structured skills assessments and configurable funding calculations.

2. Service Scope

The service supports assessment of prior learning and funding adjustments prior to enrolment. It may be used standalone or alongside other Onefile services.

3. Key Features

- Skills assessment questionnaires
- Prior learning evidence upload
- Configurable funding calculations
- Review and approval workflows

4. Intended Users

- Apprenticeship training providers

5. Access and Delivery Model

Delivered as a public cloud SaaS service via web browser.

6. Hosting and Data Location

Hosted in UK-based cloud data centres.

7. Integration and Interoperability

Integrates with OneFile Enrol and ILR services.

8. Security and Data Protection

Covered by OneFile's ISO/IEC 27001 certified ISMS.

9. Service Levels and Support

99.9% availability with standard support services.

10. Onboarding and Getting Started

Setup support provided with documentation and optional training.

11. Service Constraints

- Internet access required
- Assessment-based usage model

12. End-of-Contract Data Handling

Assessment data can be exported during the contract.

13. Standards and Assurance

- ISO/IEC 27001
- Cyber Essentials
- Cyber Essentials Plus
