Fixed Fee, Successful Outcome

Our fixed fee, successful outcome method is simple. Following initial discussions or an RFP, we create a Statement of Work outlining project details, costs, and the project outcome—this becomes part of the G-Cloud contract schedule. By collaborating closely with your team, we will determine a resource profile made up of the right resource at the right time, ensuring cost-effectiveness for you and flexibility for our resourcing. This method ensures your project uses only the necessary resources for each activity. Collaborating closely with your team, we will deliver on our promises, taking the uncertainty out of projects.

We use the SFIA 8 framework to identify the level of the resource to ensure transparency.

We have found this to be a successful method to deliver projects and we would be happy to put you in touch with previous clients who have benefitted.
