

Modern Learning That Strengthens Regulatory Compliance While Boosting Employee Engagement

Is your compliance training putting your organization at risk?

For years, risk, compliance and HR executives have faced challenges delivering effective compliance training. Traditional approaches of long, unengaging, annual training often result in content that's forgettable, disconnected from daily work, and frequently left incomplete. Compliance Plus addresses these persistent pain points by offering a robust library of concise, digestible training that meets the needs of your compliance program while exceeding employee expectations.

Without meaningful training, employees miss critical legal risks or violations and an unprepared workforce represents a significant liability. KnowBe4's Compliance Plus equips team members to proactively identify risks, recognize potential workplace hazards and confidently address ethical concerns. When combined effectively with our [security awareness training](#), your organization will benefit from a workplace culture that excels in safety, upholds the highest ethical standards, and consistently maintains regulatory compliance, driving organizational excellence and peace of mind.

Compliance Plus

Our evolving compliance library offers interactive, relevant and engaging content with realistic simulated scenarios that teach employees how to identify challenging situations and respond appropriately.

Developed in collaboration with internal and external regional legal experts, our micro modules provide your organization with accurate, up-to-date content on essential compliance topics. The concise format and compelling approach ensure the training resonates and creates lasting behavioral change.

KnowBe4 provides comprehensive support for Compliance Plus customers through multiple channels tailored to your needs. Customers receive access to our responsive technical support team, extensive knowledge base, and implementation resources. Our content specialist services help you navigate regional compliance requirements, while our training and enablement offerings ensure your team maximizes platform value.

The End of Expensive, Time-Consuming Compliance Training is Here

When you combine the power of the KnowBe4 platform with our Compliance Plus library, your organization can establish a fully automated security awareness and compliance training program in minutes at a competitive price.

Compliance Plus equips your users with the knowledge and awareness needed to:

- Adhere to laws and regulations
- Protect themselves and the organization from unethical and unsafe work environments
- Safeguard your organization's reputation

The Compliance Plus library is available as an add-on across any existing KnowBe4 Subscription Level, making implementation seamless for IT and HR executive teams with overlapping training requirements.

Key Benefits

- ▶ Access 1000+ items of refined compliance content, regularly updated to reflect current regulatory standards
- ▶ Training addresses legislative and data privacy requirements including HIPAA, PCI, GDPR and other frameworks
- ▶ High-quality, brandable modules with seamless integration of your organization's policies and procedures
- ▶ Concise, interactive modules designed to maintain learner focus and boost completion rates
- ▶ Upload your organization's custom SCORM-compliant training and video content to complement our established library
- ▶ Supplemental learning materials including newsletters, documents and posters to strengthen knowledge retention
- ▶ Fully automated compliance training campaigns supported by responsive customer service and comprehensive reporting tools.

Key Features

Business Ethics

Build a solid ethical foundation with comprehensive training on anti-bribery and corruption, anti-money laundering, conflict of interest, gifts and hospitality, code of conduct, and other ethical principles that empower employees to make sound decisions.

Employment Law

Access training covering regional workplace laws including discrimination, harassment, wage and hour laws, and reasonable accommodations for those with disabilities.

Our content is designed to promote compliant workplace practices across jurisdictions.

Data Privacy & Protection:

Understand the risks of mishandling personal data and the consequences of non-compliance with key regulations including HIPAA, GDPR, POPIA, PCI and other frameworks through micro, focused learning modules.

Discrimination and Harassment

Teach users to recognize discrimination, prevent incidents and create respectful workplaces. Training addresses sexual harassment, unconscious bias, microaggressions, protected characteristics and managers' responsibilities in creating safe environments.

Environmental Social and Governance (ESG)

Provide guidance on sustainability practices, human trafficking prevention, whistleblowing protocols and internal controls that mitigate organizational risk while supporting responsible business operations.

Workplace Safety

Equip employees to identify potential hazards and take appropriate action—from preparing for workplace emergencies to prevent injuries. Training delivers best practices for maintaining safe, productive work environments.

Diversity, Inclusion & Belonging

Meet learners where they are in their DI&B journey with modules on inclusive language, cultural competence and related topics.

Professional Development

Invest in employee growth with courses on process improvements, workplace efficiencies and other effective leadership topics. These modules demonstrate organizational commitment to employee development and retention.
