Microsoft 365 Governance & Compliance Reviews

Microsoft 365 Governance & Compliance Reviews

Strengthening control, security and compliance across your Microsoft 365 environment.

A well governed Microsoft 365 environment is essential for security, compliance and efficient collaboration. Our Microsoft 365 Governance & Compliance Reviews assess your current configuration, permission model, and overall governance maturity to identify risks, gaps and improvement opportunities.

We evaluate your security posture, access controls, compliance alignment and tenant configuration, providing clear recommendations to strengthen your environment and support safe, consistent use of Microsoft 365.

Why Choose Our Governance & Compliance Reviews?

- Assess Microsoft 365 governance maturity across key capability areas.
- Review permissions, access controls and administrative roles.
- Evaluate configuration, security settings and tenant posture.
- Identify risks that impact compliance and operational security.
- Align your environment with best practice governance frameworks.
- Receive clear, actionable recommendations for improvement.
- Support audit readiness and organisational compliance needs.
- Delivered by experienced Microsoft 365 governance specialists.

What You'll Gain

- A clearer understanding of your current governance and risk posture.
- Reduced security and compliance risks through targeted improvements.
- Better control of permissions, access and administrative rights.
- Stronger alignment to organisational policies and standards.
- Improved consistency across teams, sites, and applications.
- A more secure, well managed Microsoft 365 environment.

Our Approach

We begin with a discovery session to understand your environment, policies and priorities. Our team reviews tenant configuration, permission structures, administrative roles, security controls and compliance settings across Microsoft 365.

We conduct a governance maturity assessment, map risks, and evaluate alignment with best practices and organisational standards.

You receive a detailed report with findings, recommendations and a clear roadmap for improving governance, compliance and operational control.

We provide guidance and optional support to help you implement changes and strengthen your Microsoft 365 tenancy over time.

About iThink 365

iThink 365 helps organisations succeed with Microsoft 365 by strengthening the core pillars that modern businesses rely on: collaboration, communication, business processes, knowledge management, and data-driven decision-making.

We deliver secure, cloud-hosted solutions and services that make it easier for teams to work together, share information consistently, and reduce day-to-day friction, so people spend less time on admin and more time on the work that moves the business forward. Through practical workshops and roadmap-led guidance, we help leaders understand what's possible across Microsoft 365 and prioritise the initiatives that will deliver the most value, quickly and safely.

Our portfolio brings these pillars to life across the Microsoft Cloud, from AI and Microsoft 365 Copilot services (enablement, governance, Copilot Studio solutions, and agentic AI agents for business processes) to Power Platform solutions (Power Apps, Power Automate, Power BI and AI Builder), intranet and digital workplace accelerators, and Teams/SharePoint business system integration that connects HR, CRM, finance and other line-of-business systems into the flow of work.

We also provide Microsoft 365 analytics and reporting to measure adoption and uncover improvement opportunities, plus Microsoft 365 and SharePoint migration services to modernise collaboration safely with minimal disruption. Where customers want ready-to-use capability, our iThink Connect product range, including SmartFlo, adds practical, people-first automation inside Microsoft 365 to reduce manual effort and keep work moving.

Everything we offer is designed to be scalable, configurable, and governed, helping organisations build a secure, future-ready foundation for productivity and growth.
