

Data Platform and Analytics

La Fosse Capability

Delivering trusted, timely data insight to support evidence-based decisions

La Fosse designs and delivers modern data platforms and analytics capabilities that enable organisations to collect, process and analyse data at scale. We support the full lifecycle from data architecture and pipeline design to reporting and visualisation. Our approach embeds governance and quality controls to ensure data is trusted, reusable and aligned to organisational and policy objectives.

Modern data platforms

Cloud-native data warehouses and lakehouse architectures

Analytics and BI

Dashboards and reporting for operational and strategic insight

Data quality and governance

Controls to ensure accuracy, lineage and reuse

AI-ready foundations

Structured, well-governed data supporting advanced analytics

- **Data platform architecture and design**
- **Automated data ingestion and pipelines**
- **Analytics, dashboards and reporting**
- **Data quality and governance controls**

1

Assess and define

Understand data sources, user needs, quality issues and reporting requirements

2

Design and build

Design data models, pipelines and platform architecture

3

Deliver insight

Develop dashboards, analytics and reporting aligned to user needs

4

Govern and enable

Embed quality controls, governance processes and knowledge transfer

Proven public sector impact

La Fosse accelerates the safe modernisation of legacy systems through a structured, factory-based migration approach. We assess readiness, manage dependencies, plan remediation and deliver controlled migration waves using automation and DevOps practices.

National data platform
and analytics delivery

Supported the design and delivery of data platforms and analytics capabilities underpinning nationally significant data services.

Outcome: Trusted, timely insight, improved data reuse and stronger analytical capability.

Operational analytics
and reporting
enablement

Delivered data and reporting specialists to improve operational insight across high-volume case and service data.

Outcome: Reduced reporting time, improved data consistency and better decision-making.

Privileged access and
security control
implementation

Provided data platform and analytics expertise to improve reporting, visibility and operational insight.

Outcome: Faster access to management information and improved confidence in data-driven decisions.

Delivering positive, lasting impact beyond project outcomes

We're an employee-owned business that believes transformation should empower people as much as technology. Every engagement builds confidence, inclusivity, and self-sufficiency within client teams.

Sustainability and climate

Eco-conscious operations, reduced travel, digital-first engagement, social sustainability through charitable partnerships.

Inclusion and opportunity

Diverse delivery teams, fair pay, early-career pathways via La Fosse Academy.

Wellbeing, culture and communities

Consultant communities, prioritising mental and physical wellbeing, transparency and healthy working practices.

A woman with dark hair in a ponytail is seen from behind, looking out of a train window. The background is blurred, suggesting motion. The entire image has a purple overlay.

Thank you
