

Migration and Modernisation Factory

La Fosse Capability

Accelerating the safe modernisation of legacy systems to governed cloud foundations

La Fosse accelerates cloud migration through a structured, factory-based delivery model that drives repeatable, high-quality legacy modernisation. We diagnose migration readiness, map dependencies, plan remediation, and execute wave-based migrations, embedding modern delivery, automation, and operational resilience across public-sector estates.

Migration readiness

Migration-readiness and legacy complexity baseline creation across systems

Governed migration

Dependency mapping, remediation design, and wave-planning for governed migration

Repeatable execution

Repeatable migration execution supported by DevOps and automation practices

Enablement

Embedded internal enablement through collaborative planning, learning, and oversight

- **Accountable delivery coordinating migration waves**
- **Repeatable DevOps, dependency, remediation, and validation artefacts**
- **Governed wave execution, tested quality gates, structured learning loops**
- **Migration expertise spanning cloud engineering, data flows, and legacy app modernisation**

1

Assess and baseline

Analyse legacy estate readiness, dependencies, data flows, and migration constraints

2

Design and plan waves

Define remediation, packaging, sequencing, automation blueprints and wave plan

3

Migrate and modernise

Execute controlled migration waves, validate quality, minimise downtime and defects

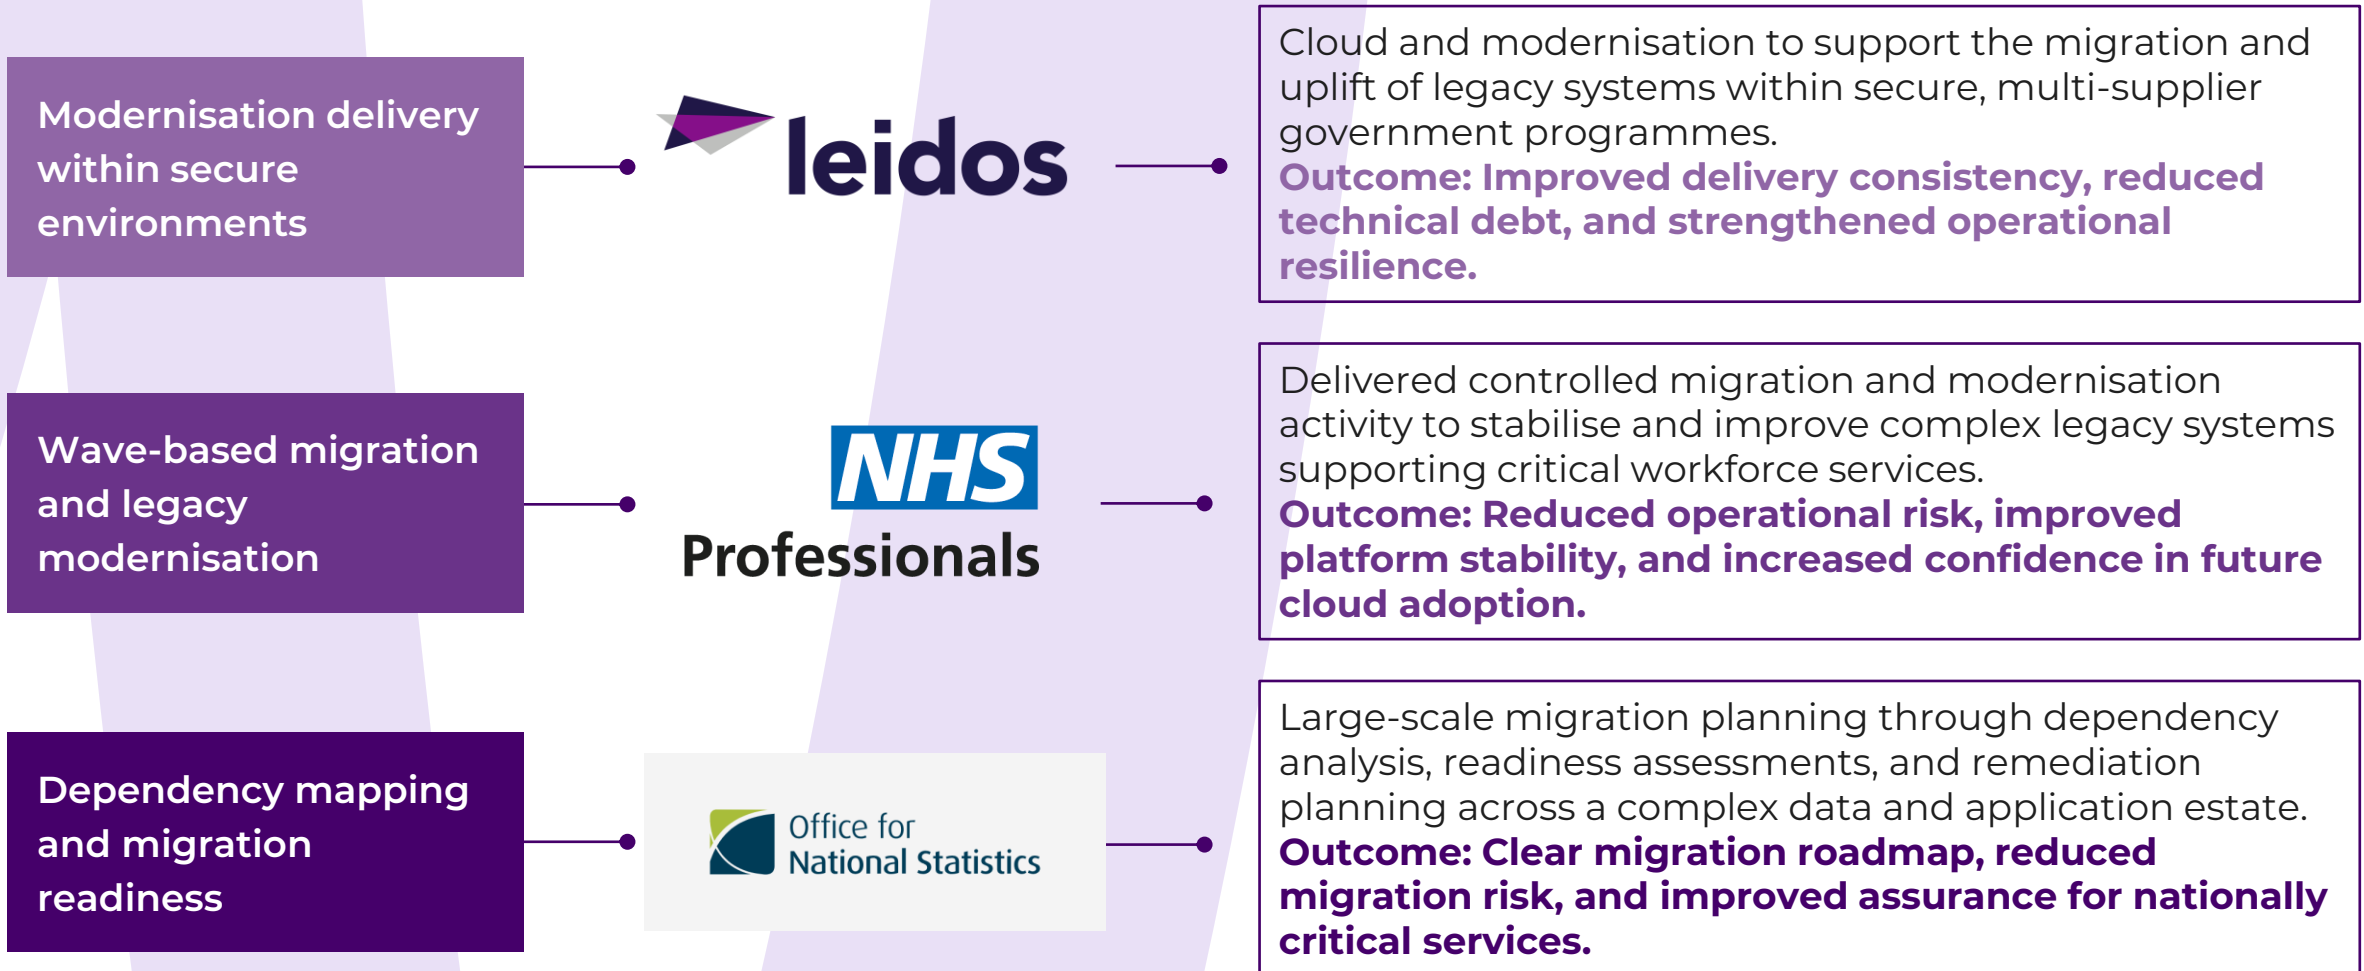

4

Measure and improve

Track velocity, defects, assurance outcomes and embed repeatable migration learning

Proven public sector impact

La Fosse accelerates the safe modernisation of legacy systems through a structured, factory-based migration approach. We assess readiness, manage dependencies, plan remediation and deliver controlled migration waves using automation and DevOps practices.

Delivering positive, lasting impact beyond project outcomes

We're an employee-owned business that believes transformation should empower people as much as technology. Every engagement builds confidence, inclusivity, and self-sufficiency within client teams.

Sustainability and climate

Eco-conscious operations, reduced travel, digital-first engagement, social sustainability through charitable partnerships.

Inclusion and opportunity

Diverse delivery teams, fair pay, early-career pathways via La Fosse Academy.

Wellbeing, culture and communities

Consultant communities, prioritising mental and physical wellbeing, transparency and healthy working practices.

A woman with dark hair in a ponytail is seen from behind, looking out of a train window. The background is blurred, suggesting motion. The entire image has a purple overlay.
