

Digital Accessibility Compliance and Remediation Labs

La Fosse Capability

Achieving and sustaining WCAG compliance across digital estates

La Fosse provides continuous accessibility testing and remediation services to help organisations meet and sustain compliance with WCAG 2.2 and public sector accessibility regulations. We combine automated and manual testing, remediation support and governance to reduce accessibility risk. Our lab-based approach enables regular assessment, prioritised fixes and ongoing assurance across web and application estates.

Accessibility testing at scale

Automated and manual testing across digital services

WCAG 2.2 compliance assurance

Clear evidence and reporting aligned to statutory requirements

Remediation and fix support

Remediation and fix support

Ongoing governance

Dashboards, audits and processes for sustained compliance

- **Automated and manual accessibility testing**
- **WCAG 2.2 compliance audits and reporting**
- **Defect remediation and validation**
- **Governance, dashboards and assurance**

1

Assess and baseline

Evaluate accessibility compliance across services and platforms

2

Test and identify issues

Run automated scans and manual audits to identify failures

3

Remediate and validate

Support fixes and re-test to confirm compliance

4

Govern and sustain

Establish ongoing audits, dashboards and improvement cycles

Proven public sector impact

La Fosse helps organisations achieve and maintain accessibility compliance through structured testing and remediation. We provide repeatable assurance and governance that reduces legal risk while improving inclusivity and user experience across digital services.

Accessibility
compliance for public
services

Department
for Transport

Supported accessibility testing and remediation across citizen-facing digital services.

Outcome: Improved WCAG compliance, reduced accessibility risk and more inclusive services.

Accessibility assurance
within regulated
environments

CareQuality
Commission

Delivered accessibility audits and remediation support for regulated digital services.

Outcome: Improved compliance confidence, clearer reporting and reduced risk of challenge.

Operational
accessibility
improvement

Financial
Ombudsman
Service

Provided accessibility testing and remediation support across high-volume digital services.

Outcome: Improved accessibility compliance, better user experience and stronger assurance.

Delivering positive, lasting impact beyond project outcomes

We're an employee-owned business that believes transformation should empower people as much as technology. Every engagement builds confidence, inclusivity, and self-sufficiency within client teams.

Sustainability and climate

Eco-conscious operations, reduced travel, digital-first engagement, social sustainability through charitable partnerships.

Inclusion and opportunity

Diverse delivery teams, fair pay, early-career pathways via La Fosse Academy.

Wellbeing, culture and communities

Consultant communities, prioritising mental and physical wellbeing, transparency and healthy working practices.

A woman with dark hair in a ponytail is seen from behind, looking out of a train window. The background is blurred, suggesting motion. The entire image has a purple overlay.
