

Agile and Product Operating Model Transformation

La Fosse Capability

Embedding scalable, product- led agility into public-sector delivery

La Fosse supports public-sector organisations to adopt product-based and agile operating models that improve delivery pace, collaboration, governance and value focus. We assess agile maturity, design target operating models, coach delivery leaders, and train multidisciplinary teams to embed sustainable capability aligned to government digital standards.

Embedding

Embedded within departmental governance structures and delivery standards

Enablement

Coaching and enablement for product and delivery leadership roles

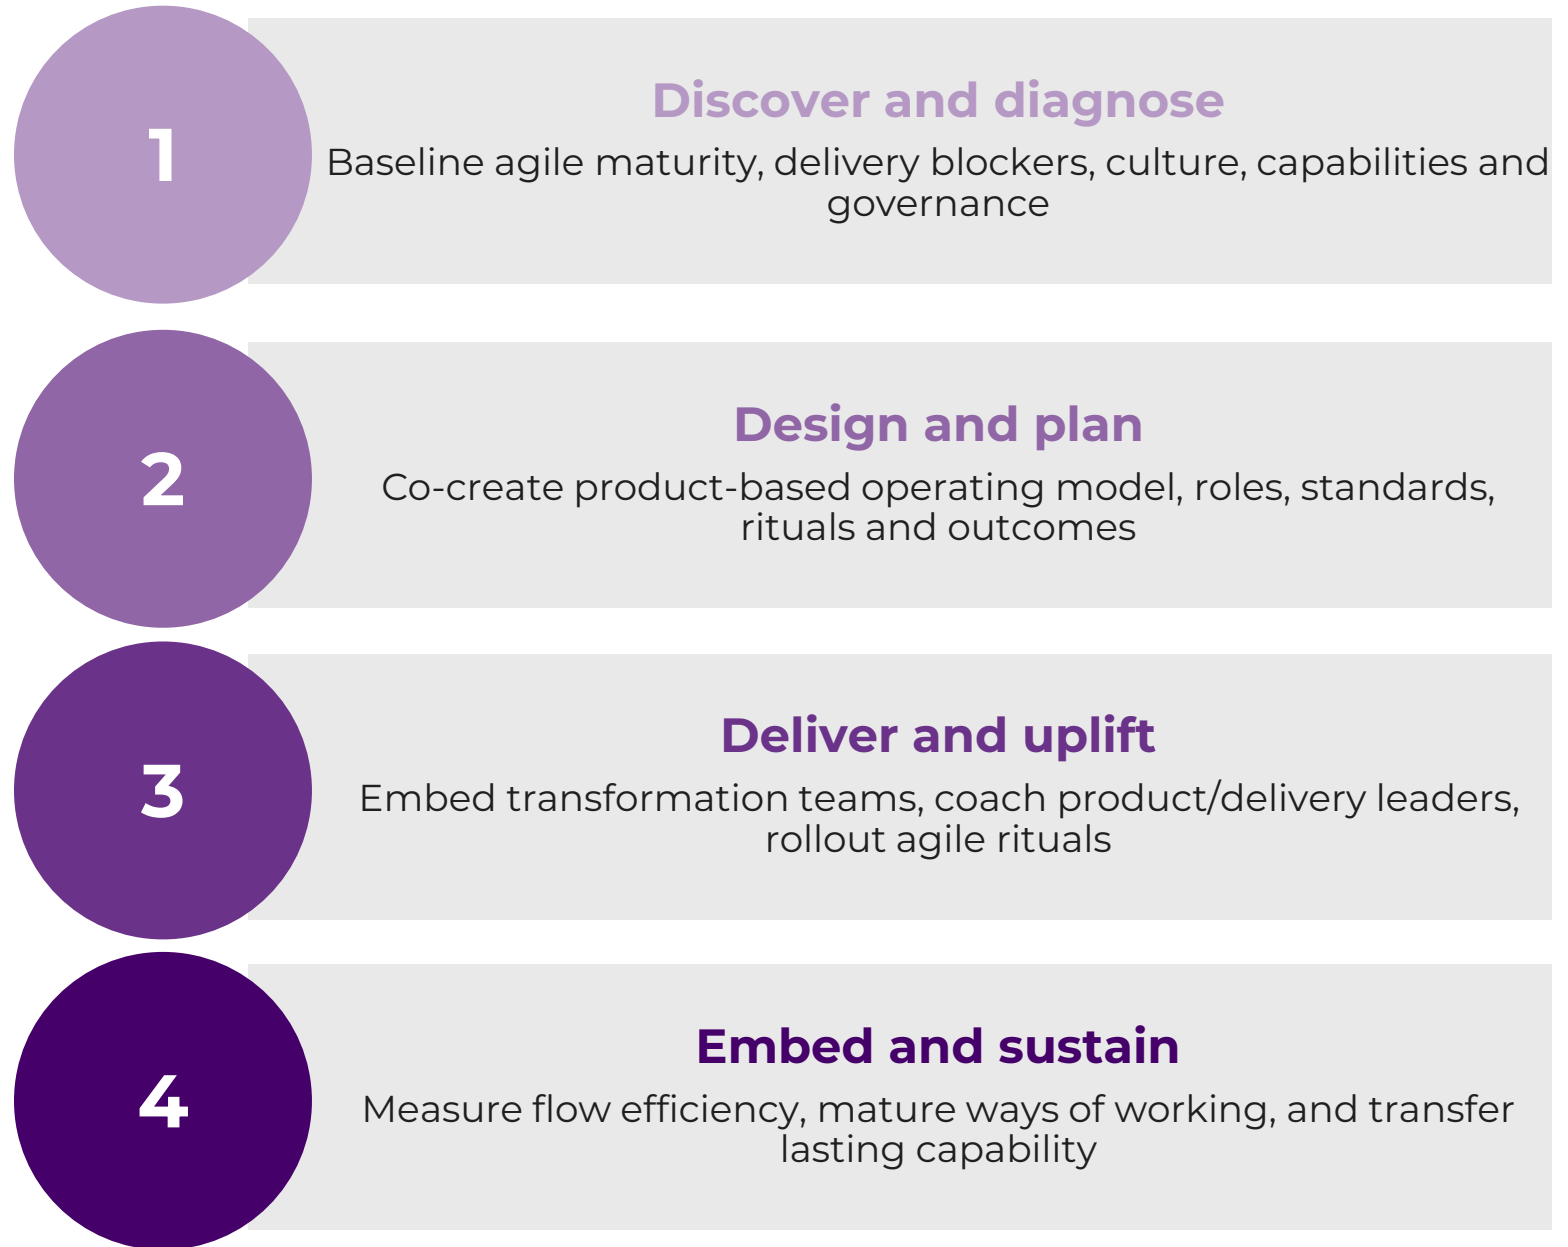

Learning

Hands-on learning for multidisciplinary agile delivery teams

Capability building

Capability building supported by scaled agile frameworks and best practice

- **Rapid mobilisation of agile and product transformation programmes**
- **Integrated coaching and guided implementation**
- **Built-in knowledge sharing for long-term internal ownership**
- **Aligned tooling, rituals, metrics and reporting cadence**

Proven public sector impact

La Fosse enables organisations to shift from project-based delivery to scaled product-led agility. Our teams unite delivery expertise with behavioural adoption, coaching, and governance redesign, providing pace, clarity and predictable value while strengthening internal agile capability.

Scaled agile
governance and
capability building

Department
for Transport

Provided product, delivery and agile specialists to support the adoption of consistent agile practices and delivery governance across digital portfolios.

Outcome: Improved flow efficiency, clearer prioritisation, and sustainable in-house agile capability embedded within teams.

Agile maturity uplift
and delivery
enablement

Professionals

Embedded agile delivery/change specialists to improve delivery confidence, coach delivery leaders, establish consistent agile practices in complex programmes.

Outcome: Faster delivery cycles, improved team collaboration, and increased transparency across delivery pipelines.

Product-led operating
model design and
adoption

Office for
National Statistics

Supported the transition from project-based delivery to product-led ways of working across national digital transformation programme, embedding new roles, rituals and governance.

Outcome: Improved delivery predictability, clearer ownership, and stronger alignment between outcomes and user needs.

Delivering positive, lasting impact beyond project outcomes

We're an employee-owned business that believes transformation should empower people as much as technology. Every engagement builds confidence, inclusivity, and self-sufficiency within client teams.

Sustainability and climate

Eco-conscious operations, reduced travel, digital-first engagement, social sustainability through charitable partnerships.

Inclusion and opportunity

Diverse delivery teams, fair pay, early-career pathways via La Fosse Academy.

Wellbeing, culture and communities

Consultant communities, prioritising mental and physical wellbeing, transparency and healthy working practices.

A woman with dark hair in a ponytail is seen from behind, looking out a train window. The background is blurred, suggesting motion. The entire image has a purple overlay.
